## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **Department of Transportation**, the **Department of Natural Resources**, the **Office of the State Courts Administrator**, the **Department of Economic Development - Public Service Commission**, the **Department of Economic Development - Office of the Public Counsel**, the **Department of Economic Development - Division of Energy**, and the **Administrative Hearing Commission** each assume the current proposal would not fiscally impact their respective agencies.

Officials from the **Joint Committee on Administrative Rules** state that the proposal is not anticipated to cause a fiscal impact to their agency beyond its current appropriation.

Officials from the **Metropolitan St. Louis Sewer District** and the **City of Kansas City** assume the current proposal would not fiscally impact their local political subdivision.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

**Oversight** assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.
