FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of the Secretary of State (SOS)** assume this proposal would allow public libraries in Saline County to put before the voters a maximum one half cent sales tax to support library services. The sales tax could potentially provide a good revenue source for library service, and reduce the need for property tax increases.

Officials from the **Office of Administration - Division of Budget and Planning (BAP)** assume this proposal would not result in any additional costs or savings to their organization.

BAP officials noted this proposal would allow Saline County, upon voter approval, to levy a sales tax of up to 0.5% for a public library district. BAP officials stated that the Department of Revenue reported taxable sales in Saline County in 2012 of \$194.6 million. Therefore this proposal might generate $(\$194,600,000 \times 1/2\%) = \$973,000$ in local revenues.

Officials from the **Department of Revenue (DOR)** provided a response that did not indicate an administrative impact to their organization.

Oversight assumes any administrative impact to DOR would be minimal and could be absorbed with existing resources.

DOR officials provided an estimate of the IT cost to implement this proposal of \$1,092 based on 40 hours of programming to make changes to DOR systems.

Oversight assumes OA - ITSD (DOR) is provided with core funding to handle a certain amount of activity each year. Oversight assumes OA - ITSD (DOR) could absorb the costs related to this proposal. If multiple bills pass which require additional staffing and duties at substantial costs, OA - ITSD (DOR) could request funding through the budget process.

Officials from the **Marshall Public Library** assume this proposal would not have a fiscal impact on their organization.

Officials from **Saline County** did not respond to our request for information.

ASSUMPTION (continued)

Oversight notes this proposal would allow Saline County officials to submit a proposition to the voters for a one-half cent sales tax for library purposes.

Since this proposal is permissive, any fiscal impact related to this proposal would result from future action by county officials and would be dependent on voter approval. Accordingly, this proposal has no direct fiscal impact.
