FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Social Services - MO HealthNet Division (MHD)** assume this legislation revises Chapter 376, RSMo. The MHD assumes since there is no specific exemption for contracts with the state, the legislation will pertain to HMOs that contract with the state to provide health benefits to MO HealthNet Managed Care participants. MHD managed care covered 800 patients with eating disorders in FY 13.

The first year cost is for an actuarial study to determine the impact of this requirement on rate ranges to ensure actuarial soundness as required by the Centers for Medicare and Medicaid Services. The cost of the analysis will depend on the complexity of the analysis needed to address this program change. At a minimum, the actuarial study would include a survey of the Managed Care health plans to determine their current practices related to determining medical necessity for coverage of eating disorders. The health plan criteria may be different from the Practice Guidelines for the Treatment of Patients with Eating Disorders, as most recently published by the American Psychiatric Associations. The expected utilization change due to the difference in the criteria would determine the fiscal impact to the capitation rates. The cost of the study could be up to \$25,000. It is assumed that capitation rates would increase in year 2 and forward; however, the impact is unknown at this time.

Officials from the **Missouri Department of Conservation**, the **Department of Transportation**, the **Department of Mental Health**, and the **Department of Insurance, Financial Institutions and Professional Registration** each assume the current proposal would not fiscally impact their respective agencies.

Officials from the **Department of Public Safety - Missouri Highway Patrol** defer to Department of Transportation for fiscal impact.

In response to a previous version of this proposal, officials from **the Department of Health and Senior Services**, and the **Missouri Consolidated Health Care Plan** each assumed the proposal will not fiscally impact their respective agencies.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This proposal requires all health benefit plans to provide coverage for the diagnosis and treatment of eating disorders. The proposal also prohibits various acts by health benefit plans that may disincentivize providers from providing treatment or patients from accepting less treatment than is permitted under the act. The proposal further requires that the provided coverage include a broad array of specialist services as proscribed as necessary by the patient's treatment team. The proposal requires that services covered by the act require no greater deductible or co-payment than other health care services provided by the health benefit plan. Supplemental insurance policies are exempted from the requirements of the act.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
