FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Insurance, Financial Institutions and Professional Registration (DIFP)** state that the proposal requires more extensive analysis by the insurance department and interaction with international regulators through participation and hosting of supervisory colleges. The department does not currently have staff with an understanding of advanced risk management strategies or the man-hours available to complete the in-depth review and work with the supervisory colleges.

Missouri is the lead state for 28 active holding companies that contain 51 domestic insurers. DIFP will be responsible for conducting analysis not only on an entity level but will be responsible for coordinating review of the entire holding company system. Missouri also regulates 39 insurers that are part of holding companies and Missouri will be responsible for participating and providing information to other states regarding enterprise risk management and holding company review. The new in-depth analysis and enterprise risk management review will require a full time dedicated risk management specialist.

Missouri is the lead international regulator of two international holding companies and the lead US regulator for another. Additional review work and responsibilities will be required to host and attend supervisory colleges with international regulators. The in-depth knowledge of US and international insurance accounting and regulation will require a full time examiner level specialist.

Therefore, the department is requesting 2 Insurance Examiners III (at \$74,975 annually) with in-depth knowledge of US and international insurance accounting and regulations to review the new form F filings and coordinate, attend, monitor supervisory colleges and the information generated for and from them. DIFP estimates expense totals of at least \$213,061 in FY 16, at least \$237,889 in FY 17, and at least \$240,383 in FY18. DIFP assumes the cost will be divided between the Insurance Dedicated Fund and the Insurance Examination Fund.
