FISCAL ANALYSIS

ASSUMPTION

Officials at the **Department of Economic Development (DED)** assume §99.845 allows that a former automobile manufacturing plant located in a designated area qualifies for State Supplemental TIF. The TIF new state revenues for disbursement may not exceed \$4 million. DED assumes a negative impact ranging from \$0 to \$4 million offset by any positive activity generated as a result of this proposal.

Officials at the **City of Fenton** state the City is not aware of any fiscal impact of HB 514, however HB 514 may have an impact if the proponents of this legislation actually submit to the City. Even then, the impact on the City is unknown at this time. The likely fiscal impact will be on the State of Missouri and the multiple taxing districts with jurisdiction over the former automobile manufacturing plants located in any county of the first class having a charter form of government and having a population of over nine hundred thousand inhabitants.

Officials at the **Department of Revenue** and the **State Tax commission** each assume no fiscal impact from this proposal.

Oversight assumes there could be a loss to the General Revenue fund of up to \$4 million for redevelopment projects involving the former automobile manufacturing plants located in St. Louis County for incremental new state revenues generated by the project. This would be transferred upon appropriation to St. Louis County for up to 50% of incremental state revenues from sales tax and/or state income tax withheld.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

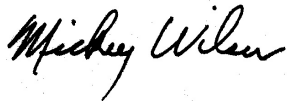

This bill authorizes tax increment financing for the redevelopment of former automobile manufacturing plants located in St. Louis County. The former automobile manufacturing plant must be a redevelopment area containing a minimum of 100 acres and was historically used primarily for the manufacture of automobiles but ceased operations after the 2007 calendar year.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
