## FISCAL ANALYSIS

### ASSUMPTION

**Oversight** was unable to receive some of the agency responses in a timely manner due to the short fiscal note request time. Oversight has presented this fiscal note on the best current information that we have or on prior year information regarding a similar bill. Upon the receipt of agency responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval of the chairperson of the Joint Committee on Legislative Research to publish a new fiscal note.

**Oversight** has not received a response from Jefferson County.

### § 643.650 - Sulfur Dioxide Air Quality Monitoring:

Officials from the **Department of Natural Resources (DNR)** assume this proposal indicates the owner of the electrical utility would be responsible for electing which method is used to characterize the source's Sulfur dioxide impacts and it is assumed that the owner is also responsible for purchasing the equipment, operations, and maintenance costs of the network.

DNR would not anticipate a direct fiscal impact from this proposal.

In response to a similar proposal, HB 1084 (2015), officials from the **Department of Economic Development** assumed the proposal would not fiscally impact their agency.
