**FISCAL ANALYSIS**

**ASSUMPTION**

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** state insurers would be required to submit amendments to their policies to comply with the legislation. Policy amendments must be submitted to the department for review along with a \$50 filing fee. The number of insurance companies writing these policies in Missouri fluctuates each year. One-time additional revenues to the Insurance Dedicated Fund are estimated to be up to \$14,000.

Additional staff and expenses are not being requested with this single proposal, but if multiple proposals pass during the legislative session which require policy form reviews the department will need to request additional staff to handle increase in workload.

**This proposal will increase total state revenue.**

**FISCAL IMPACT - Small Business**

No direct fiscal impact to small businesses would be expected as a result of this proposal.

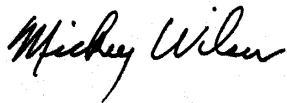

FISCAL DESCRIPTION

The bill allows casualty insurers to return or refund a portion of its expense savings to an insured if the insured makes no reportable claim under specified coverages within a prescribed period of time established by the insurer, regardless of whether the claim is due to the fault of the insured. The return of savings may be represented as a predetermined portion of the premium, and may not constitute a rebate or an unfair trade practice under Sections 375.930 to 375.948, RSMo.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
