FISCAL ANALYSIS

ASSUMPTION

§170.047 Training and Guidelines for Youth Suicide Awareness and Prevention Training

Oversight notes this proposal, in §170.047, would allow a licensed educator to complete up to two hours of training or professional development in youth suicide awareness and prevention. These hours would count toward the required professional development hours for certification. The Department of Elementary and Secondary Education is to develop guidelines for the training.

Officials at the **Department of Elementary and Secondary Education (DESE)** assume that §170.047 requires DESE to develop guidelines for training in youth suicide awareness and prevention. To develop youth suicide awareness and prevention training materials that schools may use, the department will collaborate with organizations having expertise in this field. DESE estimates this would have insignificant costs.

Oversight assumes that DESE could create the guidelines and training materials using existing resources.

Oversight assumes that since this new training would be in place of other professional training required of licensed educators there would be no additional costs to school districts for the training.

§170.048 School District Policies on Youth Suicide Awareness and Prevention

Oversight notes this proposal, in §170.048, would require each school district to adopt a policy on youth suicide awareness and prevention. DESE shall develop a model policy that the school districts may adopt. Every three years DESE must seek input on district's experiences with the model policy and DESE is to make changes to the model policy as needed.

DESE assumes that to develop a model policy for youth suicide awareness and prevention, there would be insignificant costs.

Beginning in 2021, DESE will be required to collect feedback from districts on their experience with the policy for youth suicide awareness and prevention. This will require the department to develop an instrument, in consultation with experts in the field, to collect valid and reliable data to inform revision decisions in order to make positive changes to the department's model policy. DESE estimates insignificant costs.

Beginning in 2021, DESE will need to convene the policy committee to review findings from the

ASSUMPTION (continued)

feedback instrument to make revision decisions to the department's model policy. DESE estimates insignificant costs.

Oversight assumes that DESE could create the model policy and do the follow-up required using existing resources. Since school districts are allowed to adopt this model policy they would not have fiscal impact from the creation of their own policy.

Officials at the **Lee's Summit R-7 School District** assume this would cost \$25,019 for 2 hours of professional development. This includes 1,380 certified staff at an hourly rate of \$18.13 per hour.

Officials at the **Brentwood School District** assume the new training would add \$7,500 in costs to train staff (\$50 per staff person) and \$200 to develop procedures.

Officials at the **Macon County R-IV School District** assume this would cost for the training. It would cost mileage and the training. Additionally it would cost \$75 a day for substitute pay.

Officials at the **Grain Valley School District** assume the impact would be the cost of the training.

Officials at the **Cassville School District** assume this would cost \$8,500.

Officials at the **Everton School District** assume added costs of \$1,000 annually.

Officials at the **Forsyth R-III School District** assume this would add cost of \$2,000.

Officials at the **Orrick School District** assume training of all staff would cost \$1,500 - \$2,500.

Officials at the **East Newton** and the **Kirbyville R-VI School Districts** each assume added costs for training each year. The cost of the training cannot be determined at this time.

Officials at the **Bloomfield School District** assume added costs for training and policy development. The cost cannot be determined at this time.

Officials at the **Tipton R-VI School District** responded to Oversight's request for fiscal impact but did not indicate an impact.

ASSUMPTION (continued)

Officials at the **Joint Committee on Administrative Rules** assume there is no fiscal impact from this proposal.

Officials at the **Kansas City, Kearney, Middle Grove C-1, Riverview Gardens, Sarcoxie R-II, Shelby County R-IV, Smithville, St. Charles, St. Elizabeth R-4, Warren County R-II, West Plains** and the **Wright City R-II School Districts** each assume there is no fiscal impact from this proposal to their respective districts.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

Beginning in the 2017-2018 school year, any licensed educator may annually complete up to two hours of training or professional development in youth suicide awareness and prevention as part of the professional development hours required for State Board of Education certification.

The Department of Elementary and Secondary Education shall develop guidelines for training or professional development in youth suicide awareness and prevention. The Department shall also develop materials that may be used for such training or professional development.

Each district shall adopt a policy for youth suicide awareness and prevention by July 1, 2018. The Department develop a model policy by July 1, 2017, that districts may adopt. The Department shall cooperate, consult with, and seek input from organizations that have expertise in youth suicide awareness and prevention. By July 1, 2021, and at least every three years thereafter, the Department shall request information and seek feedback from districts on their

FISCAL DESCRIPTION (continued)

experience with the policy for youth suicide awareness and prevention. The Department shall review this information and may use it to adapt the department's model policy. The Department shall post the information it receives from districts on its website. The Department shall not post any confidential information or any information that personally identifies a student or school employee.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
