#### FISCAL ANALYSIS

#### **ASSUMPTION**

Officials at the **Office of Administration's Division of Budget and Planning** assume this proposal allows the General Assembly to create tax-free or reduced-tax geographic districts to promote small business development. These "show-me small business districts" shall be limited to 23 years of preferential tax status.

It appears that Section 3 of Article 10 applies to just property taxes as the language in this section refers to property that is assessed. If subsequent legislation implementing this provision is limited to reducing the amount of property taxes, it would reduce local taxes- as well as the amount of revenue going into the State's Blind Pension Fund - by an unknown amount. The reduction to the State's Blind Pension Fund will cause a corresponding decrease to Total State Revenues.

This proposal may encourage economic growth, which could impact Total State Revenues. Note - there is no language in this proposal that precludes a taxpayer's concurrent use of other tax credit programs.

Officials at the **Department of Economic Development** assume no fiscal impact as a result of the proposed legislation and defers to the Office of Administration's Division of Budget and Planning for impact.

Officials at the **Department of Revenue** assume no fiscal impact from this proposal to their organization.

Officials at the **Office of the Secretary of State (SOS)** assume each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Joint Resolutions proposing a constitutional amendment are submitted to a vote of the people at the next general election. Article XII section 2(b) of the Missouri Constitution authorizes the governor to order a special election for constitutional amendments referred to the people. If a special election is called to submit a Joint Resolution to a vote of the people, §115.063.2, RSMo, requires the state to pay the costs. The cost of the special election has been estimated to be \$7.1 million based on the cost of the 2012 Presidential Preference Primary. This figure was determined through analyzing and totaling expense reports from the 2012 Presidential Preference Primary received from local election

#### ASSUMPTION (continued)

authorities.

The SOS is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with \$1.3 million historically appropriated in odd numbered fiscal years and \$100,000 appropriated in even numbered fiscal years to meet these requirements. The appropriation has historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2013, at the August and November elections, there were 5 statewide Constitutional Amendments or ballot propositions that cost \$2.17 million to publish (an average of \$434,000 per issue). In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation and the SOS was appropriated \$1.19 million to publish the full text of the measures. Due to this reduced funding, the SOS reduced the scope of the publication of these measures. In FY 2015, at the August and November elections, there were 9 statewide Constitutional Amendments or ballot propositions that cost \$1.1 million to publish (an average of \$122,000 per issue). Despite the FY 2015 reduction, the SOS will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, we reserve the right to request funding to meet the cost of our publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

**Oversight** has reflected in this fiscal note, the state potentially reimbursing local political subdivisions the cost of having this joint resolution voted on during a special election in fiscal year 2016. This reflects the decision made by the Joint Committee on Legislative Research, that the cost of the elections should be shown in the fiscal note. The next scheduled statewide primary election is in August 2016 and the next scheduled general election is in November 2016 (FY 2017). It is assumed the subject within this proposal could be on that ballot; however, it could also be on a special election called for by the Governor. Therefore, Oversight will reflect a potential election cost reimbursement to local political subdivisions in FY 2016.

**Oversight** also notes that the proposal authorizes the General Assembly to, by law, create districts. Any fiscal impacts on political subdivisions or the Blind Pension Fund would be addresses in the fiscal notes for such proposed laws.

## FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

## FISCAL DESCRIPTION

This constitutional amendment, if approved by the voters, will allow for the creation of discrete tax-free or reduced-tax geographic districts for the purpose of promoting small business development to further economic development in such districts. No such district may maintain tax-favored status for a term longer than twenty-three years.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
