FISCAL ANALYSIS

ASSUMPTION

Officials at the **Department of Elementary and Secondary Education (DESE)** assume there would be no additional cost to the state. There will be a loss to those charter schools which cannot include as local revenue, those funds designated by taxpayers as early childhood education funds. DESE defers to the urban school districts regarding the extent of any funds that will remain in the district of residence rather than being distributed to the charter schools.

Oversight assumes this proposal would not fiscally impact General Revenue. However, this would result in some school districts retaining additional money while the charter school districts would lose the money. This transfer of money would be offsetting.

Officials at the **Kansas City Public Schools** assume little to no impact from this proposal.

In response to the previous version, officials at the **City of Kansas City** assumed there was no fiscal impact from this proposal.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This act excludes funds designated by taxpayers in an urban district as local early childhood education funds from the local tax revenue calculation used to provide funding to charter schools that have declared themselves as a local educational agency.

This proposal has an emergency clause.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
