FISCAL ANALYSIS

ASSUMPTION

Oversight notes this proposal requires high school students to receive thirty minutes of instruction in cardiopulmonary resuscitation in order to graduate. This proposal starts with the 2017-2018 (FY 2018) school year. Currently school districts have the option of providing this instruction. Oversight can not determine how many schools may currently teach this class.

Oversight assumes school districts per this proposal, would include this instruction in their required health or physical education courses. Oversight assumes that since it is only thirty minutes of instruction it can be added to the existing health and physical education classes. Therefore, Oversight will not show an impact from this proposal.

Officials at the **Department of Elementary and Secondary Education (DESE)** assume there is no fiscal impact from this proposal. School districts may be impacted by the proposal. DESE defers to the school districts for impact.

Officials at the **Forsyth R-III School District** assume a cost of \$500 to certify a staff member.

Officials at the **Carondelet, Everton, Special School District of St. Louis** and the **West Plains** school districts each assume there is no fiscal impact to their respective districts.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
