FISCAL ANALYSIS

ASSUMPTION

Officials at the **Department of Natural Resources** assumes the proposal only applies to environmental data collected pursuant to Chapter 267 (State Veterinarian-Diseased Animals) and the Federal Animal Disease Traceability Program. Therefore, the department would not anticipate a direct fiscal impact from this proposal.

The proposal also states any entity or person alleging a violation of the proposal provisions may bring a civil action against a state agency in a court of competent jurisdiction. The court may order any appropriate relief including damages in an amount not to exceed \$10,000, payment of reasonable attorney's fees, costs, expenses, and any injunctive relief the court deems necessary and proper.

Officials at the **Office of Attorney General (AGO)** assume any potential costs arising from this proposal can be absorbed with existing resources. AGO may seek additional appropriations if the proposal results in a significant increase in workload.

Officials at the **Department of Agriculture, Department of Conservation, Department of Health and Senior Services, Office of Administration - Budget and Planning, Department of Health and Senior Services, and Office of State Courts Administrator** each assume this proposal will not have a fiscal impact on their respective organizations.
