FISCAL ANALYSIS

ASSUMPTION

Officials at the **Missouri Ethics Commission (MEC)** assume §105.481 would prohibit a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office.

This change would require the MEC to do the following:

- Provide information to public officials and the public as specified in the Commission duties in §105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration and are not eligible to register or act as a lobbyist, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in §105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.
