FISCAL ANALYSIS

ASSUMPTION

Oversight was unable to receive some of the agency responses in a timely manner due to the short fiscal note request time. Oversight has presented this fiscal note on the best current information that we have or on prior year information regarding a similar bill. Upon the receipt of agency responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval of the chairperson of the Joint Committee on Legislative Research to publish a new fiscal note.

Oversight notes this proposal allows members of the Missouri National Guard to pay in-state tuition at Missouri higher education institutions. This tuition limitation is applied after all other federal and state aid for which the individual is eligible is applied.

Oversight notes that tuition at the University of Missouri for 14 credit hours is estimated to be \$10,586 for in-state students and \$25,198 for out-of-state students. Oversight notes that the University of Central Missouri charges \$214.85 per credit hour for in-state students and \$429.70 for out-of-state students. Oversight is unable to determine how many Missouri National Guard members pay out-of-state tuition. Additionally, Oversight is unable to determine if the institutions currently have programs that would lower the amount paid by Missouri National Guard members when they enroll as a student. Oversight for the purpose of the fiscal note, will show the higher education institutions may experience a loss of tuition that is currently received. Oversight will show the impact as unknown over \$100,000.

Officials at the **Department of Higher Education** assume this would not fiscally impact the department; though they would need to promulgate rules for the program.

In response to similar legislation filed this year, HB 2155, officials at the **Office of the Adjutant General** assumed there is no fiscal impact from this proposal.

In response to similar legislation filed this year, HB 2155, officials at the **University of Missouri** assumed the approximate cost would be \$250,000 at the Columbia campus assuming the numbers stay about the same with roughly 45 eligible students. At University of Missouri- St. Louis there are 36 eligible students and their cost would be \$0. At the Missouri University of Science and Technology report that their cost would be \$34,650. UMKC assumes this proposal would result in additional students being eligible.

Officials at the **State Technical College of Missouri** assume this would have a negative fiscal impact but the impact can not be determined at this time.

ASSUMPTION (continued)

In response to similar legislation filed this year, HB 2155, officials at the **Missouri State University** assumed this would have an unknown negative impact.

Officials at the **University of Central Missouri** assume there is no fiscal impact from this proposal.

Officials at the **Metropolitan Community College** and the **St. Louis Community College** each assume there is no fiscal impact from this proposal to their institution.

In response to similar legislation filed this year, HB 2155, officials at the **Missouri Western State University** and the **State Fair Community College** each assumed there was no fiscal impact from this proposal to their respective institutions.

Officials at the **Joint Committee on Administrative Rules** assumed there is no fiscal impact from this proposal.

Oversight assumes that in similar legislation granting rule making authority the **Office of the Secretary of State (SOS)** assumed:

Many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

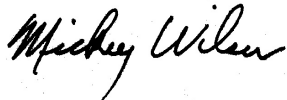

FISCAL DESCRIPTION

This act allows current members of the Missouri National Guard to receive in-state residency status for the purposes of tuition at any public four-year institution of higher education, or in-district residency status for any two-year public institution, as described in the act.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
