FISCAL ANALYSIS

ASSUMPTION

§29.225, §105.478, §595.219 Official Misconduct

In response to similar legislation filed this year, SB 176, officials at the **Office of the Secretary of State** assumed no fiscal impact from this proposal.

In response to similar legislation filed this year, SB 176, officials at the **Boone County Sheriff's Department**, the **St. Louis County Police Department** and the **St. Louis County Department of Justice Services** each assumed no fiscal impact to their respective entities from this proposal.

§105.713

In response to similar legislation from this year, HCB 7, officials from the **Missouri Senate** assumed the proposal will have no fiscal impact.

Oversight notes the proposal adds certain details that should be provided in the report submitted by the Attorney General and the Commissioner of Administration to the General Assembly regarding activity concerning the State Legal Expense Fund. Oversight assumes the added details of the report and the added duties of the Commissioner of Administration will not have any material impact on the affected agencies.

§144.026

Officials at the **City of Kansas City** assume a small negative fiscal impact of an indeterminate amount from this proposal.

§§210.1109, 475.600, 475.602, 475.604

Officials from the **Department of Public Safety (DPS), Missouri State Highway Patrol (MHP)** state subsection 6 of section 475.602 requires a community service program that offers support services for families in crisis under this section to ensure that a fingerprint-based background check, a sex offender registry check (included with a fingerprint-based background check) and a child abuse and neglect registry check is completed for the attorney-in-fact and any adult members of his or her household prior to the placement of the child. It does not, however, specify if the fingerprint-based background check is to include a federal fingerprint-based background check. Therefore, the Criminal Justice Information Services (CJIS) Division is unable to determine the exact cost of the fingerprint-based background check or the expected number of fingerprint-based background checks to be completed on attorney-in-facts or any adult members of the household prior to the placement of the child.

ASSUMPTION (continued)

However, the cost for a fingerprint-based background check, to include state and federal open and closed records, is as follows:

State fee:	\$20
Federal Bureau of Investigations (FBI) fee:	\$12
Applicant fingerprinting vendor fee:	<u>\$ 8.30</u>
TOTAL fee per applicant:	<u>\$40.30</u>

Of these amounts, the state retains the \$20 state fee and \$2 of the federal charge of \$12 for a pass-thru fee. The \$8.30 charge is paid directly to the vendor at the time of application.

Once the anticipated number and types of background checks to be completed under this legislation has been determined, CJIS will be able to estimate the amount of funds to be deposited in the Criminal Records Fund under this proposal.

In response to similar legislation from this year, HCS for SB 195, officials from the **Kirkville R-III School District** stated they are unable to determine the fiscal impact of this proposal on their school district.

Oversight assumes the costs of additional background checks would not be significant and could be absorbed by the school district.

In response to similar legislation from this year, HCS for SB 195, officials from the **Kansas City Public Schools**, the **Everton R-III School District**, the **Kearney School District**, the **Pettis County R-XII School District**, the **West Plains Schools**, and the **Wright City R-II School District** each assumed the proposal would not fiscally impact their respective agencies.

§400.9-501 and §570.095 Offense of Filing False Documents

Officials at the **Department of Corrections (DOC)** assume this proposal removes a Class E felony for filing false documents in RSMo 400.9-501 and replaces it with a Class D/Class C felony in the newly created RSMo 570.095.

The language in the newly created section is more specific than that in the current statute, and allows for a Class D felony for first time offenders, with an enhancement to class C for repeat offenders or offenses against certain government officials, police, fire fighters, etc. While this change makes the legislation more clear, it does not appear that any new actions would be considered a crime under these changes.

The current legislation found in RSMo 400.9-501 was modified in 2014 to introduce the criminal penalty. No charge code was ever created for this statute, and the legislation is still quite new,

ASSUMPTION (continued)

meaning that good data for the current impact is unknown. Thus, this will be treated as a new offense; further, as this offense is expected to be quite rare, only the D felony version will be considered. The standard response for a new non-violent D felony is found below. Under this situation, 3 individuals will be sentenced to prison and 5 to probation in each fiscal year. For incarcerated individuals, the average sentence is 4.8 years, with a total of 2.9 years in prison and 1.9 years on parole; the probationers serve a 3.0 year term.

	FY2018	FY2019	FY2020	FY2021	FY2022	FY2023	FY2024	FY2025	FY2026	FY2027

Field Population	5.0	10.0	15.3	18.3	20.7	20.7	20.7	20.7	20.7	20.7
Population Change	8.0	16.0	24.0	27.0	29.4	29.4	29.4	29.4	29.4	29.4

Thus, this legislation is estimated to increase the prison population by 8.7 individuals by FY2020, and increase the field population to 20.7 by FY2022.

The FY 2016 average cost of supervision is \$6.12 per offender per day or an annual cost of \$2,234 per offender. The DOC cost of incarceration is \$16.67 per day or an annual cost of \$6,085 per offender.

The DOC would assume this legislation will result in long term costs as indicated in the chart below.

	# to Prison	Cost per year	Total Cost Prison	# to Probation & Parole	Cost per year	Total Cost P&P	Grand Total P&P

ASSUMPTION (continued)

Officials at the **Office of State Public Defender (SPD)** cannot assume that existing staff will provide competent, effective representation for any new cases arising where indigent persons are charged with the proposed new crime of intentionally filing a fraudulent financing statement or any financing statement with the Secretary of State with the intent to harass or defraud any other person. This offense would be a new Class D Felony, unless the offense meets other circumstances, then it becomes a Class C Felony.

While the number of new cases (or cases with increased penalties) may be too few or uncertain to request additional funding for this specific bill, the SPD will continue to request sufficient appropriations to provide effective representation in all cases where the right to counsel attaches.

Oversight assumes the State Public Defender's Office can absorb the additional caseload that may result from this proposal.

In response to similar legislation from this year, HCB 1, officials from the **Office of the Secretary of State (SOS)** stated they file more than 155,000 UCC filings per year, so additional staff would be needed to conduct the additional review this proposal requires. It is anticipated that two new FTEs would need to be created with salaries at \$29,000 per year. Missouri law requires the SOS to file UCC filing within three business days of receipt; therefore, these filings would have to be prioritized for this additional review to comply with these guidelines. RSMo § 400.9-519(h).

The estimate for one-time IT costs (\$80,000) is based on previous experiences contracting with vendors to make changes to existing software. The estimate that two additional full-time employees would be needed is based upon the estimate of how many UCC filings would be reviewed per year (155,000).

In response to similar legislation filed this year, HB 303, officials at **St. Charles County** assumed there would be a minimal fiscal impact for maintaining a spreadsheet of suspect documents and emailing them to law enforcement.

In response to similar legislation filed this year, HB 303, officials from the **Boone County Sheriff's Department** and **Cole County Sheriff** each assumed the proposal would have no fiscal impact on their respective organizations.

§252.069, §479.170, §488.029, §488.5050, §557.035, §565.076, §565.091, §566.010, §575.280, §577.001, §577.010, §595.045

Officials from the **Office of State Public Defender (SPD)** cannot assume that existing staff will provide effective representation for any new cases arising where indigent persons faced with the enhanced penalties for second and subsequent harassment offenses, a new class E felony. The legislation also provides for increased penalties for acceding to corruption.

ASSUMPTION (continued)

While the number of new cases (or cases with increased penalties) may be too few or uncertain to request additional funding for this specific bill, the SPD will continue to request sufficient appropriations to provide effective representation in all cases where the right to counsel attaches.

Oversight assumes the SPD can absorb the additional caseload that may result from this proposal.

Officials from the **Department of Corrections (DOC)** state this legislation proposes a number of changes to the Missouri criminal code.

Section 565.076 changes the language regarding domestic assault to include “any violation of any county or municipal ordinance in any state, any state law, any federal law, or any military law which, if committed in this state, two or more times, would be a violation of this section in which case it is a Class E Felony.” This would allow for violations from other states to be included as a determinant for someone being charged as a “prior or persistent” offender under an E Felony. This is expected to create a new violent offense.

There are many other sections with minor changes, none of which creates an impact to the DOC.

If this impact statement has changed from statements submitted in previous years, it is because the department’s Budget and Research Section reviewed the way responses had been submitted and has developed a more precise way to calculate the impact. In previous year’s responses, the full impact of recidivism for parole releases was not adequately calculated. Now we have been able to quantify the fact that some parolees are returned to prison after release and that has been added into the calculation of the impact. The total number of offenders has not changed but there is an assumption that they will spend more time back in prison rather than being on community supervision, which will increase the amount of the impacts.

The FY16 average cost of supervision is \$6.12 per offender per day or an annual cost of \$2,234 per offender. The DOC cost of incarceration is \$16.67 per day or an annual cost of \$6,085 per offender.

ASSUMPTION (continued)

The DOC would assume this legislation will result in long term costs as indicated in the chart below.

	# to prison	Cost per year	Total Costs for prison	# to probation	Cost per year	Total cost for probation and parole	Grand Total - Prison and Probation (includes and 2% inflation)
Year 1	2	(\$6,085)	(\$12,170)	1	(\$2,234)	(\$2,234)	(\$12,003)
Year 2	4	(\$6,085)	(\$24,340)	2	(\$2,234)	(\$4,468)	(\$29,384)
Year 3	6	(\$6,085)	(\$36,510)	3	(\$2,234)	(\$6,702)	(\$44,958)
Year 4	6	(\$6,085)	(\$36,510)	6	(\$2,234)	(\$13,404)	(\$52,969)
Year 5	6	(\$6,085)	(\$36,510)	6	(\$2,234)	(\$13,404)	(\$54,029)

472.400, 472.405, 472.410, 472.415, 472.420, 472.425, 472.430, 472.435, 472.440, 472.445, 472.450, 472.455, 472.460, 472.465, 472.470, 472.475, 472.480, 472.485, 472.490

Officials at the **Office of Administration (OA)** assume ITSD would need to make coding changes in the Employee Self Service System to remove the Single Sign On links to benefit providers. This would occur when the user would be someone other than the actual employee. These changes would take 162 hours of work at \$75 per hour for a total cost of \$12,150.

Oversight assumes the OA is provided with core funding to handle a certain amount of computer activity from each year’s legislative session. Oversight assumes OA could absorb the coding changes related to this proposal. If multiple bills pass which require additional staffing and duties at substantial costs, OA could request funding through the appropriation process. Therefore, Oversight will reflect a \$0 fiscal impact to this proposal.

§478.463 Division 12 of the 16th Judicial Circuit

Officials at the **Office of the State Courts Administrator** assume the proposed legislation may have some impact on the state as well as Jackson County, but there is no way to quantify that currently. Any significant changes will be reflected in future budget requests.

§§479.353, 479.354

Officials at the **City of Kansas City** assume a small negative fiscal impact of an indeterminate amount from this proposal.

Oversight assumes this proposal changes and creates provisions relating to minor traffic violations in municipal court. Oversight assumes the court may order a credit for time served for individuals who were previously assessed a fine if the individual was held in custody for a minor traffic violation. Oversight assumes this will be at the discretion of the court and will have minimal fiscal impact. Therefore Oversight will reflect a \$0 impact for this proposal.

ASSUMPTION (continued)

§488.2206 Court Surcharge

Officials at the **Office of the State Courts Administrator (OSCA)** assume the proposed legislation modifies provisions relating to judicial proceedings. The 6th Circuit (Platte County), 7th Circuit (Clay County), 19th Circuit (Cole County), 29th Circuit (Jasper County), 31st Circuit (Greene County), 38th Circuit (Christian County), and 46th Circuit (Taney County) qualify. Based on FY 2015 data, there were 40,890 filed civil cases and 43,878 filed criminal cases. OSCA anticipates the surcharge could be up to approximately \$847,680 (40,890 + 43,878 = 84,768 (\$10) = \$847,680).

Oversight assumes OSCA's response includes Greene County. This proposal adds single non-charter county judicial circuits, however, Greene County's surcharge was authorized in Truly Agreed To and Finally Passed CCS for SS for SCS for HCS for HB 1231 from the 2014 session. Oversight can not back into Greene County's number from OSCA's response, therefore, Oversight assumes the revenue collected from this surcharge on non-charter county judicial circuits will be "less than" \$847,680.

§488.2250 Court Reporter Fees

Officials at the **Office of the State Public Defender (MSPD)** assume this proposal relates to fees paid to court reporters. The current law, §488.2250, sets the rate for appeal transcripts or proceedings in any circuit court. This would be \$3.50 per page, except for in forma pauperis appeal transcripts which are \$2.60 per page. The proposed change would set the rate only for appeal transcripts or no change in rate.

Court reporters would not be regulated in what they charge for transcripts of hearings, daily transcripts of trials, etc. The proposal would allow court reporters to charge whatever the market will bear except for appeal transcripts. Presumably, costs would go up to MSPD and other litigants. There would be a significant fiscal impact as MSPD frequently orders court transcripts for purposes other than appeal. For trial preparation, MSPD frequently orders transcripts of proceedings such as:

- preliminary hearings
- suppression hearings
- 491 hearings on admissibility of hearsay statements of alleged child sex victims
- trial transcripts when a first trial ended in a hung jury
- transcripts of a co-defendant's trial, etc

As the amount a court reporter will charge for these items will no longer be set by statute, and it is unknown what the court reporter will charge, it is impossible to place a firm fixed cost on this proposed legislation. Historically speaking, this proposal could cost MSPD more than \$100,000. The increase in costs of this proposal would limit the MSPD's ability to meet its other core responsibilities.

ASSUMPTION (continued)

Oversight notes FY 2013, Truly Agreed To and Finally Passed CCS for HCS for SB 100, was the last time the court fee rate was changed for transcripts from court reporters. Officials from OSCA stated the rate changed from \$2.00 per page to \$3.50 per page and \$2.60 for indigents. OSCA responded with a fiscal impact of less than \$100,000. Because this proposal does not set the rate in statute for hearings, daily transcripts of trial, etc., the fiscal impact could be significant for both state and local political subdivisions. Therefore, Oversight will reflect a negative fiscal impact that could exceed \$100,000 for MSPD and a negative unknown fiscal impact to local political subdivisions.

§§515.575, 515.635 - General Receiver and Noncontingent liquidated claims rate

In response to similar legislation from 2016, SCS for HB 2590, officials from the **County of St. Louis**, and the **Cole County Sheriff's Department** each assumed the current proposal would not fiscally impact their respective organizations.

§577.037

Officials at the **Office of State Public Defender (SPD)** cannot assume that existing staff will provide effective representation for any indigent client faced with the DWI that could be prosecuted arising from that approximate 15-month period listed in the statute.

While the number of new cases may be too few or uncertain to request additional funding for this specific bill, the SPD will continue to request sufficient appropriations to provide effective representation.

Oversight assumes the SPD can absorb the additional caseload that may result from this proposal.

In response to similar legislation from this year, HB 35, officials at the **Callaway County Commission** and the **City of Excelsior Springs** each assumed no fiscal impact to their respective entities from this proposal.

§577.060 Penalty for Leaving the Scene of an Accident

Officials from the **Office of State Public Defender (SPD)** cannot assume that existing staff will provide effective representation for any new cases arising where indigent persons are charged with the proposed new crime of leaving the scene of an accident when a death has occurred - a new class D felony.

While the number of new cases (or cases with increased penalties) may be too few or uncertain to request additional funding for this specific bill, the SPD will continue to request sufficient appropriations to provide effective representation in all cases where the right to counsel attaches.

Oversight assumes the SPD can absorb the additional caseload that may result from this proposal.

ASSUMPTION (continued)

§589.664 - Participant address confidentiality program

In response to similar legislation from this year, SCS for HCS for HB 260, officials from the **Office of the Secretary of State (SOS)** stated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Bill as a whole

Officials at the **Office of the Attorney General** assume that any potential costs arising from this proposal can be absorbed with existing resources.

Officials at the **Missouri Department of Transportation, the Department of Economic Development, the Department of Revenue, the Department of Conservation, the Department of Health and Senior Services, the Department of Social Services, the Office of State Auditor, the Missouri Ethics Commission, the Department of Mental Health, the Office of the State Treasurer, the Office of Prosecution Services, the Missouri House of Representatives, the Department of Insurance, Financial Institutions and Professional Registration, the Department of Agriculture, the Department of Natural Resources and the State Tax Commission** each assume no fiscal impact to their respective agencies from this proposal.

Officials at the **Springfield Police Department** assume no fiscal impact from this proposal.

Officials at the **City of Kansas City** assume no fiscal impact from this proposal, except for the sections noted above.

In response to a previous version, officials at the **City of Columbia** assumed no fiscal impact from this proposal.

FISCAL DESCRIPTION

§252.069, §479.170, §488.029, §488.5050, §557.035, §565.076, §565.091, §566.010, §575.280, §577.001, §577.010, §595.045

This proposal modifies various provisions relating to criminal offenses.

§400.9-501

This bill creates the offense of filing a false document, which is committed if a person files, causes to be filed, or attempts to file, creates, uses as genuine, transfers or has transferred, presents, or prepares with knowledge or belief that it will be filed, presented, or transferred to the Secretary of State or his or her designee, any county recorder of deeds or his or her designee, any municipal, county, district, or state government entity or office, or any credit bureau or financial institution specified documents. For the first offense, filing a false document is a class D felony. Filing false documents is a class C felony in certain specified instances.

Any person who is found guilty of committing such offense will be ordered to make full restitution to any person or entity that has sustained any actual losses as a result of the commission of such offense.

The bill specifies that a system must be created, by January 1, 2018, in which suspicious filings are logged, and outlines the process for petitioning the court when a person has probable cause to believe a filing is fraudulent.

FISCAL DESCRIPTION (continued)

§488.2206

This act provides that any single noncharter county judicial circuit, rather than just the Thirty-First Judicial Circuit, shall collect a surcharge of up to ten dollars in all cases to be deposited in an account known as the "Justice Center Fund." In addition to costs associated with the construction, maintenance, and operation of a judicial facility, the act states that the funds from the surcharge may be used for the planning, including architectural and engineering plans, of a judicial facility or justice center. The county or municipality shall maintain records identifying all funds received and expenditures made from the fund.

§488.2250

This bill repeals provisions of law that specify that court reporters shall receive \$3.50 per page in proceedings in any circuit court. The bill also repeals the requirement that court reporters be reimbursed at \$3.50 per page.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
