FISCAL ANALYSIS

ASSUMPTION

Officials at the **Department of Elementary and Secondary Education** assume there is no fiscal impact from this proposal to the Department. In some cases, this would allow school district to spend less on professional development than they do now.

Officials at the **Everton R-III School District** assume a savings of \$3,000.

Officials at the **West Plains School District** assume they would likely continue to spend the 1%, so there would not be a savings. However, it would allow more flexibility in spending.

Officials at the **Kirksville R-III School District** assume there is no fiscal impact from this proposal as they would continue to spend the 1%.

Oversight notes this proposal would allow a school district when it receives a reduction in transportation funding to reduce the amount it spends for professional development. Oversight notes this proposal is permissive and gives school districts the option of reducing professional development spending. Oversight will not show a fiscal impact from this proposal.
