FISCAL ANALYSIS

ASSUMPTION

Officials at the **Department of Revenue (DOR)** assume this language is required to comply with federal requirements for "repeat" intoxication-related offenders under 23 U.S.C. § 164. This applies to a circumstance where state law allows a court-ordered waiver of ignition interlock device (IID) installation and use for motor vehicles which are solely owned and controlled by the offender's employer.

Federal law requires either IID installation for repeat intoxication-related offenders (two offenses within a five-year period) for limited driving privileges or license reinstatement OR a 'hard walk' or mandatory license suspension period. If an IID waiver for an employer-owned vehicle is allowed by state law, it must comply with the federal requirements and apply only in situations where the repeat offender has no ownership interest in or control over the entity that owns the vehicle.

This language was not contained in the version of §302.440 passed in the 2016 legislative session, and is required. Failure to include the language will place Missouri out of compliance with federal law for repeat intoxication-related offenders and will result in the possible loss or withholding of federal highway aid funds. The DOR assumes no fiscal impact from this proposal.

Officials at the **Missouri Department of Transportation**, the **Department of Corrections**, the **Office of the State Courts Administrator** and the **Department of Public Safety's Missouri Highway Patrol** each assume no fiscal impact to their respective agencies from this proposal.

<u>FISCAL IMPACT - Local Government</u>	FY 2018 (10 Mo.)	FY 2019	FY 2020

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

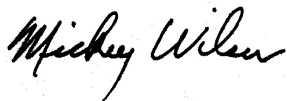

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is federally mandated. However, it would not duplicate any other program and would not require additional capital improvements or rental space.
