FISCAL ANALYSIS

ASSUMPTION

§208.790 - MO Rx Program

Officials from the **Department of Social Services (DSS), MO HealthNet Division (MHD) and Division of Legal Services (DLS)** state this proposal modifies the MO Rx Program. Section 208.790 removes the requirement that MO Rx applies only to Medicaid dual eligible individuals.

MHD officials state this legislation allows individuals whose income is less than one hundred eighty-five percent of the federal poverty level for the applicable family size to be eligible for the MO Rx plan.

Currently the MO Rx program is available for dual (Medicare and Medicaid) participants only.

Subject to appropriation, if this legislation is enacted, the program will be available for dual and non-dual participants.

The projected average number of non-duals in FY19 is 63,596. Using a per member per year cost of \$281, the projected F19 10 month cost would be \$14,909,544 (rounding).

The estimated FY19 start-up and administrative cost include contractor (\$83,333), mailings (\$75,043), and enrollment fees (\$333,877) and would be \$492,254 for a total cost of \$15,401,797 (\$14,909,543 + \$492,254).

Estimated FY19 rebate revenue of \$3,521,288 would be offset against the cost and it is assumed MO Rx rebates are paid 6 months in arrears.

Therefore, FY19 net costs to the General Revenue (GR) Fund would be \$11,880,509 (\$15,401,797 - \$3,521,288). Full year FY20 and FY21 net costs to GR (after rebates) are \$10,873,294.

DLS state the proposal will have no impact to DLS and that they defer to MHD for the potential fiscal impact of this proposal.

Oversight notes Section 208.790 provisions removing MO Rx Program benefits for non-dual (Medicare only) participants was enacted with the passage of CCS HCS SCS SB 139 in 2017. In the fiscal note MHD anticipated a 2018 savings of \$13,075,876 (\$16,068,071 - \$2,992,195 lost rebate revenue).

ASSUMPTION (continued)

MHD's FY 18 budget for the MO Rx Plan for dual-eligibles only was \$11,562,803; the FY 19 budget request for the MO Rx Plan for dual eligibles is \$11,562,803.

Expenditures for the MO Rx Drug Program covering both dual and non-dual eligibles were approximately \$22.3 million in FY 16 and \$22.9 million for FY 17.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

Under current law, only Medicaid dual eligible individuals meeting certain income limitations are eligible to participate in the Missouri RX Plan. This act removes the Medicaid dual eligible requirement, while retaining the income limitations.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
