FISCAL ANALYSIS

ASSUMPTION

§160.530 Professional Development Expenditure

Officials from the **Department of Elementary and Secondary Education (DESE)** assume there is no cost to the department.

In response to a previous version, SB 637 (LR 4494-01), officials from the **Macon County R-IV School District** assumed, currently, the district is required to spend 1%, or roughly \$6,800, on professional development. If this is cut to .5%, the savings would be \$3,400.

In response to a previous version, SB 637 (LR 4494-01), officials from the **Osage R-2 School District** assumed the district could possibly have a savings of \$9,000 annually, However, districts would need to cover cost of professional development anyway, to meet CSIP goals and objectives. About \$9,000 could be used to cover more of transportation costs.

In response to a previous version, SB 637 (LR 4494-01), officials from the **West Plains School District** assumed there is no cost impact, other than the potential for some relief (up to \$30,000) if needed.

In response to a previous version, SB 637 (LR 4494-01), officials from the **Pettis County R-12 School District** assumed a positive impact of .5% of funding and flexibility in expenditure.

In response to a previous version, SB 637 (LR 4494-01), officials from the **Montgomery County R-II School District** assumed this may provide some funding relief locally.

In response to a previous version, SB 637 (LR 4494-01), officials from the **Forsyth R-III Schools** assumed a positive impact around \$22,000 per year.

In response to a previous version, SB 637 (LR 4494-01), officials from the **Summersville R2 School District** assumed the proposal will have little to no fiscal impact on their organization.

In response to a previous version, SB 637 (LR 4494-01), officials from the **Kirksville R-III School District** assumed the proposal will have no fiscal impact on their organization.

Oversight notes, currently, section 160.530 states that a school district is required to allocate 1% of moneys received from the foundation formula (less categorical add-ons) to the local professional development committee of which 75% of such funds shall be spent in the same fiscal year.

ASSUMPTION (continued)

Oversight assumes this provision would allow school districts to allocate less than 1% but not less than .5% of the foundation formula to the professional development committee if the amount distributed to districts for the transportation of pupils is less than 25% of the allowable costs to provide transportation. Oversight assumes school districts would have the option of foregoing part of the professional development expenditure estimated at up to \$16,964,536 (\$3,392,907,149 x .005) per year.

Oversight assumes this provision would only occur in the event of a majority vote of the school district's board. Oversight assumes that any funds generated from the foregone professional development expenditure would be used by the school districts for other purposes in the year in which the funds were received. Oversight will show a net fiscal impact of \$0 to local school districts.

§304.060 Districts May Contract with Municipalities for Transportation

Oversight assumes this provision allows the Kansas City School District to enter into contracts with municipalities to provide transportation to students. Oversight assumes this provision is permissive and will not show a fiscal impact.

§302.272 CDL Skills Test for School Bus Drivers

Officials from the **Department of Elementary and Secondary Education** assume the provision would have no fiscal impact on their organization. DESE assumes that school districts may have a possible savings. DESE defers to school districts for impact.

Officials from the **Department of Revenue (DOR)** assume this provision requires bus drivers who are at least seventy years of age to complete an examination, excluding the pre-trip inspection portion of the commercial driver's license skills test, annually to retain the school bus endorsement.

ASSUMPTION (continued)

To implement the proposed changes, DOR will be required to:

- Work with Missouri State Highway Patrol (MSHP) to modify the Missouri driver guide to include the new required component related to the commercial driving skills exam requirement for school bus drivers age 70 and over (online and printed versions);
- Update license office procedures for testing requirements; and
- Work with MSHP to destroy prior printed copies and print the updated version since this will be a required component of the test. Note: MSHP currently incurs the cost of driver guide printing.

FY 2019 - Driver License Bureau

Management Analysis Spec II	15 hrs. @ \$20.57 per hr.	= \$309
Revenue Manager Band I	10 hrs. @ \$25.05 per hr.	= <u>\$250</u>
Total		= \$559

FY 2019- Personnel Services Bureau

Administrative Analyst III	15 hrs. @ \$19.43 per hr.	= \$291
Management Analysis Spec I	15 hrs. @ \$18/42 per hr.	= <u>\$276</u>
Total		= \$567

In summary, DOR assumes a total cost of \$1,126 in FY 2019 to implement this proposal. DOR assumes it will be able to absorb the above listed costs. If multiple bills pass which require Department resources and updates, the Department could request additional FTE's and related equipment and expenses through the appropriation process.

In response to a similar proposal, Perfected HB 1676 (LR 5470-01), officials from the **Department of Public Safety - Missouri State Highway Patrol** assume the proposal will have no fiscal impact on their organization.

In response to similar proposal, Perfected HB 1676 (LR 5470-01), officials at the **Summersville R2 School District** assumed there could be an impact.

In response to similar proposal, Perfected HB 1676 (LR 5470-01), officials from the **West Plains School District** assumed the proposal would have no fiscal impact on their organization.

Oversight notes this proposal clarifies in §302.272.1(3) the "commercial driver license skills test" as not including the pre-trip inspection portion. Oversight notes that there are 3 parts to the commercial driver license test including the pre-trip inspection, basic vehicle control and on-road driving.

ASSUMPTION (continued)

Bill as a Whole

Officials from the **Department of Public Safety - Missouri State Highway Patrol** assume the proposal will have no fiscal impact on their organization.

Officials from the **City of Kansas City** assume the proposal will have no fiscal impact their organization.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

Currently, school districts are required to allocate 1% of moneys received under the school foundation formula to the professional development committee of the district. Under this act, school districts may, by majority vote of the board, allocate less than 1% but no less than .5% when such district is appropriated less than 25% of the allowable costs of providing pupil transportation under the school foundation formula. A school district may appropriate money in such manner until the end of fiscal year 2024.

The bill authorizes certain school districts to contract with municipalities to transport high school children.

This bill requires school bus drivers who are 70 years of age or older to complete a CDL skills test and the driver's license exam on an annual basis in order to maintain their authority to drive buses.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
