FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration - Facilities Management Design and Construction** assume this proposal would allow the Governor to convey certain state property. The Commissioner of Administration would set the terms of the sale.

This proposal could potentially result in a positive fiscal impact if the Office of Administration chooses to sell the property in question for more than a nominal amount. The Division of Facilities Management, Design and Construction does not make appraisal values available to the public, as such information may hinder the State's ability to gain the best value for the property.

Oversight assumes the state may receive proceeds for the conveyances respective of the value of the properties; therefore, Oversight assumes a possible exchange of asset (land) for another asset (proceeds) and will not reflect the a potential direct fiscal impact from this proposal.

Officials from the **Attorney General's Office (AGO)** assume any potential cost arising from this proposal can be absorbed with existing resources. AGO may seek additional appropriations if there is a significant increase in litigation.

Officials from the **Office of the Governor** and the **Department of Natural Resources** each assumed the proposal will have no fiscal impact on their respective organizations.
