FISCAL ANALYSIS

ASSUMPTION

Oversight was unable to receive some of the agency responses in a timely manner due to the short fiscal note request time. Oversight has presented this fiscal note on the best current information that we have or on prior year information regarding a similar bill. Upon the receipt of agency responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval of the chairperson of the Joint Committee on Legislative Research to publish a new fiscal note.

In response to a previous version, officials from the **Department of Economic Development (Public Service Commission, Office of Public Counsel, and the Division of Energy)** each assumed the proposal will have no fiscal impact on their respective organizations.

Officials from the **Department of Transportation (MoDOT)** assume the following:

67.5113: This section of the proposal would cost an estimated \$5 million per year to MoDOT due to increased reviewing of plans and permits. Permits would only be able to be denied if the proposed application would meet all the conditions of the section and fails to comply with reasonable and nondiscriminatory requirements.

Oversight will utilize MoDOT's estimate.

Oversight assumes Section 67.5125 requires the Department of Revenue to prepare and deliver a report to the General Assembly on the amount of revenue collected by local governments for the previous three fiscal years from communications service providers.

Oversight assumes DOR is provided with core funding to handle a certain amount of activity each year. Oversight assumes DOR could absorb the costs related to this proposal. If multiple bills pass which require additional staffing and duties at substantial costs, DOR could request funding through the appropriation process.

Officials from the **Department of Natural Resources, Office of Administration and Office of the State Courts Administrator** each assume the proposal will have no fiscal impact on their organizations.

In response to a previous version, officials from **Boone County** assumed the proposal will have no fiscal impact on their organization.

ASSUMPTION (continued)

Officials from numerous local political subdivisions did not respond to **Oversight's** request for fiscal impact. Without responses to the contrary, Oversight will assume the fees cities, counties, and other "authorities" are allowed to charge wireless providers will offset costs by wireless providers applying for and installing wireless facilities
