FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration (Facilities Management Design and Construction and Division of Purchasing)** assume the proposal will have no fiscal impact on their organization.

Oversight assumes that state and local governments could contract with a company that is currently engaged in a boycott of the State of Israel or territories under its control (or fails to comply with the provisions of this act). Oversight assumes that state and local governments would then need to contract with a different company which could potentially be of higher value. Therefore, Oversight will range the fiscal impact from \$0 to (Unknown) to state and local governments.

Officials from the **Office of the Secretary of State (SOS)** assume many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could require additional resources.

Officials from the **Joint Committee on Administrative Rules (JCAR)** state this legislation is not anticipated to cause a fiscal impact beyond its current appropriation.

Oversight assumes JCAR will be able to administer any rules resulting from this proposal with existing resources.

Officials from the **Attorney General's Office (AGO)** assume any potential cost arising from this proposal can be absorbed with existing resources. AGO may seek additional appropriations if the proposal results in a significant increase in cases.

FISCAL DESCRIPTION (continued)

Oversight notes that the AGO has that any potential cost arising from this proposal can be absorbed. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note for this agency.

Officials from the **Department of Natural Resources, Missouri Department of Conservation, Kansas City, Monroe County Assessor** and the **St. Francois County Assessor's Office** each assume the proposal will have no fiscal impact on their respective organizations.

Oversight notes that the above mentioned agencies have stated the proposal would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note for these agencies.

Officials from the **Department of Transportation** defer to the Office of Administration to estimate the fiscal impact of the proposed legislation on their organization.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other cities and counties were requested to respond to this proposed legislation but did not.
