FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Natural Resources**, the **Department of Commerce and Insurance**, the **Attorney General’s Office**, the **Office of Administration**, the **Department of Transportation**, the **Missouri Department of Conservation** and the **Metropolitan St. Louis Sewer District** each assume the proposal will have no fiscal impact on their respective organizations.

Oversight notes that the above mentioned agencies have stated the proposal would not have a direct fiscal impact on their respective organizations. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other utilities were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.

Oversight assumes this proposal could impact the Grain Belt Express project in northern Missouri. According to a report by the Public Service Commission (File No. EM-2019-0150), the Grain Belt Express Project line is “sited to traverse Buchanan, Clinton Caldwell, Carroll, Chariton, Randolph, Monroe and Ralls Counties, Missouri. The Grain Belt Express Project covers approximately 780 miles, and the project will primarily use a pole design which has a smaller footprint than traditional alternating current transmission lines. The structures will occupy ten acres for the entire state of Missouri.” The Joint Application of Invenergy Transmission LLC, Invenergy Investment Company LLC, Grain Belt Express Clean Line LLC and Grain Belt Express Holding LLC for an Order Approving the Acquisition by Invenergy Transmission LLC of Grain Belt Express Clean Line LLC was approved by the PSC effective June 30, 2019.

Oversight notes that while there may be no direct impact to the state or local governments as a result of this proposal, modifying provisions relating to the power of eminent domain for utility purposes could have a large indirect impact.

FISCAL IMPACT - Small Business

Small utility businesses and/or small businesses that are impacted by eminent domain could be impacted by this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
