FISCAL ANALYSIS

ASSUMPTION

Officials at the **Department of Elementary and Secondary Education** assume this proposal has no direct fiscal impact on their agency.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, school districts were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.

The previous version made vaping on school property an infraction. Smoking was already an infraction, and according to the Office of State Courts Administrator (OSCA), there were only 7 cigarette smoking infractions in FY 2019. Oversight assumed adding vaping would immaterially increase the number of infractions. This version removes the infraction for both smoking and vaping. **Oversight** assumes removing the infraction altogether would immaterially reduce the number of smoking infractions, and not have a material fiscal impact.

Oversight assumes that school district policies already bar the use of vapor products on campus. Oversight notes the Kansas City Public School District, Columbia Public School District and Springfield Public School student codes of conduct already bar this behavior.

Because of a lack of contrary information, this note has a \$0 net direct fiscal impact.

<u>FISCAL IMPACT - State Government</u>	FY 2021 (10 Mo.)	FY 2022	FY 2023

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This proposal bans vaping at schools, and removes an infraction for both smoking cigarettes and vaping in schools.

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
