## **FISCAL ANALYSIS**

### **ASSUMPTION**

Officials at the **Columbia/Boone County Public Health and Human Services** assume there will be an unknown cost due to an increase in COVID-19 cases requiring disease investigation and contact tracing. It is impossible to estimate how many additional COVID-19 cases there will be as a result of large gatherings in homes.

Officials at the **City of Springfield** anticipate a negative fiscal impact of an unknown amount due to a potential increase in COVID-19 or other communicable disease cases requiring disease investigation and contact tracing. It is impossible to estimate how many additional COVID-19 cases there will be as a result of public health orders being overturned.

**Oversight** notes it is currently the responsibility of local public health agencies (LPHAs) to conduct disease investigation and contact tracing regardless of whether a statewide emergency has been proclaimed by the governor. Oversight assumes that any potential costs that may be incurred as a result of this proposal would be indirect costs. Therefore, Oversight will present no fiscal impact for provisions of this proposal.

### **Rule Promulgation**

Officials from the **Joint Committee on Administrative Rules** assume this proposal is not anticipated to cause a fiscal impact beyond its current appropriation.

In response to similar legislation from this year, SB 12, officials from the **Office of the Secretary of State** notes many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The Secretary of State's office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to Secretary of State's office for Administrative Rules is less than \$5,000. The Secretary of State's office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what our office can sustain with our core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

**Oversight** assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Officials from the **Department of Health and Senior Services**, the **Attorney General's Office**, the **Department of Public Safety's Office of the Director**, **Missouri Highway Patrol** and the

**State Emergency Management Agency** and the **Office of the Governor** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Officials from the cities of **Ballwin, Kansas City, O’Fallon, and St. Louis City**, the **Newton County Health Department**, the **Crestwood Police Department**, the **Ellisville Police Department**, the **Kansas City Police Department** and the **St. Louis County Police Department** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

**Oversight** only reflects the responses that we have received from state agencies and political subdivisions; however, other cities, counties, county health departments, police and sheriff departments were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.

#### FISCAL IMPACT – Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

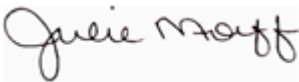

#### FISCAL DESCRIPTION

This act prohibits orders, rules, or regulations promulgated by the Governor, political subdivisions, or county health boards from governing the number of people gathering or residing on private residential property during a declared state of emergency relating to infectious, contagious, communicable, or dangerous diseases.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
