## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **Office of Administration – Budget & Planning Division (B&P)** state this proposed legislation clarifies that the Missouri Works Program is available for both full-time and part-time employees for certain projects. To the extent businesses [or military projects] qualify for additional tax credits, this proposed legislation could impact General Revenue (GR) and Total State Revenue (TSR) as well as the calculation pursuant to Article X, Section 18(e). Additionally, to the extent this proposed legislation encourages other economic activity, GR and TSR may increase, but B&P cannot estimate the induced revenues.

**Oversight** notes this proposed legislation changes the definition of “Qualified Military Project” under the Missouri Works Program to clarify that, so long as all other statutory requirements are met, an increase of ten or more **part-time or full-time** military or civilian support personnel will qualify for the benefits under the Missouri Works Program.

Furthermore, this proposed legislation modifies the provisions in which the Missouri Department of Economic Development may award tax credits to industrial development authorities for qualified military projects to the extent that tax credits may be awarded in the amount of the estimated withholding taxes associated with **part-time and full-time** employees.

**Oversight** notes tax credits reduce the State of Missouri’s General Revenue Fund. Oversight assumes the changes made in this proposed legislation will provide for an amount of tax credit issuances that exceed the amount of tax credit issuances that would otherwise be recognized without such changes put forth. Therefore, Oversight assumes GR will be reduced.

**Oversight notes, though, that the Missouri Department of Economic Development shall not authorize tax credits for qualified military projects unless the Missouri Department of Economic Development determines the qualified military project shall achieve a net positive fiscal impact to the State of Missouri.**

**Oversight** is unable to determine in what manner, whether directly or indirectly, qualified military projects will induce positive fiscal impact(s) to the State of Missouri.

**Oversight** assumes, if passed, this proposed legislation would become effective immediately; August 28, 2021 (Fiscal Year 2022).

For purposes of this fiscal note, Oversight will report a reduction to GR by an “Unknown” amount beginning in Fiscal Year 2022.

Officials from the **Missouri Department of Revenue (DOR)** state Section 620.2005 clarifies the definition of the qualified military project to require ten or more part-time or full-time military or civilian support personnel. DOR does not anticipate a fiscal impact as a result of this change in the definition of qualified military project.

DOR states section 620.2010 allows for the awarding of a tax credit in the amount equal to the estimated withholding taxes associated with both part-time and full-time jobs. DOR does not anticipate a fiscal impact on their organization as a result of the change in who qualifies for the tax credit.

Officials from the **Missouri Department of Economic Development** do not anticipate the proposed legislation will have an impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will not report a fiscal impact for this organization.

FISCAL IMPACT – Small Business

Small businesses that qualify for the Missouri Works Program incentives with these changes would be positively impacted by this proposal.

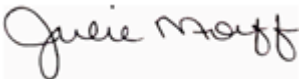

FISCAL DESCRIPTION

This proposed legislation modifies the Missouri Works Program to provide that, for qualified military projects, the benefit shall be based on both part-time and full-time jobs created by the project.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
