## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **Department of Revenue (DOR)** state this proposal would authorize state and local licensing authorities and agencies, including the MO Department of Revenue, to share the application, license, or other regulatory and financial information of a marijuana facility with a banking institution and the banking institution's state and federal supervisory agencies. It would also require that, in making a request for such information to be shared, the marijuana facility must include a waiver giving authorization to transfer individualized data, information, or records.

The proposal would likely impact DOR by resulting in requests for, and potentially the sharing of, financial and other information by DOR concerning marijuana facilities. If this proposal is meant to have DOR disclose confidential tax information received by DOR and protected by Section 32.057 this could result in unknown fiscal impact to the Department. Section 32.057, is a criminal statute, and prohibits the disclosure of confidential tax information.

The proposal may result in employees of DOR being asked to share certain information with banking institutions to facilitate financial services for a business involved in marijuana distribution. Conspiracy to distribute marijuana remains a federal crime. This could increase the risk of criminal penalties for DOR employees. This proposal could result in an unknown fiscal impact to DOR.

**Oversight** assumes because the potential for litigation is speculative that DOR will not incur significant cost related to this proposal; therefore, Oversight will not reflect a fiscal impact as result of this proposal.

Officials from **Kansas City** state this legislation could have a small negative fiscal impact on the city in an indeterminate amount because of the administrative expenses.

**Oversight** assumes Kansas City is provided with core funding to handle a certain amount of activity each year. Oversight assumes Kansas City could absorb the costs related to this proposal.

Officials from the **Department of Commerce and Insurance**, the **Department of Natural Resources**, the **Department of Public Safety - Missouri Highway Patrol**, the **Missouri Department of Agriculture**, the **Missouri Department of Transportation** and the **City of Springfield** each assume the proposal will have no fiscal impact on their respective organizations.

In response to a previous version, officials from the **Department of Health and Senior Services** and the **City of O'Fallon** each assumed the proposal will have no fiscal impact on their respective organizations.

**Oversight** notes that the above mentioned agencies have stated the proposal would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

**Oversight** only reflects the responses received from state agencies and political subdivisions; however, other cities were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.
