## FISCAL ANALYSIS

### ASSUMPTION

#### **Section 143.114 Employee Stock Ownership**

Officials from the **Department of Revenue (DOR)** note this proposal extends the Employee Stock Ownership Plan Deduction. This deduction was to sunset on December 31, 2022 and the sunset language is removed thereby assuring this deduction will be permanent. Extending or removing the sunset language of an existing program is not expected to have impact.

For informational purposes, this deduction began in 2017. No one claimed the credit in 2017. In 2018, 17 people claimed the credit. However, in 2019 & 2020, more than zero but less than the minimum reportable number filed for this deduction.

Under Section 32.057, the Department does not disclose the number of tax returns or amounts claimed if the number is so low it could identify the taxpayer. The minimum number of returns to report is 10. What DOR can provide is the grand total claimed from 2017-2020 which was \$722,342.

**Oversight** is unable to estimate the amount to be claimed under this deduction in future years. However, using DOR's total of \$722,342 in deductions claimed from 2017-2020 (4 years), we could estimate the average annual impact over that time period was \$9,751 ( $\$722,342 / 4 \text{ years} \times 5.4\% \text{ individual income tax rate}$ ). Therefore, **Oversight** will show a negative unknown impact for this provision, not reaching the \$250,000 threshold.

#### Rule Promulgation

Officials from the **Joint Committee on Administrative Rules** assume this proposal is not anticipated to cause a fiscal impact beyond its current appropriation.

Officials from the **Office of the Secretary of State (SOS)** note many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with its core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

FISCAL IMPACT – Small Business

This provision would positively impact small businesses that sell or exchange qualified employer securities.

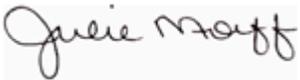

FISCAL DESCRIPTION

Current law authorizes an income tax deduction equal to 50% of the net capital gain from selling employer securities to a qualified Missouri employee stock ownership plan, with such deduction scheduled to sunset on December 31, 2022. This act repeals the sunset provision.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
