**FISCAL ANALYSIS**

**ASSUMPTION**

**§§191.1820 through 191.1855 – Missouri Parkinson’s disease Registry**

Officials from the **University of Missouri System (UM)** did not respond to **Oversight’s** request for a statement of fiscal impact. However, Oversight assumes UM will incur some costs with this proposal and will show an unknown impact to Colleges & Universities. However, Oversight assumes the impact will be less than \$250,000 annually.

Officials from the **Department of Health and Senior Services**, the **Office of Administration** and the **University of Central Missouri** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

In response to similar legislation from the current session (HB 822), officials from the **Office of the State Courts Administrator** assumed the proposal would have no fiscal impact on their organization.

**Oversight** only reflects the responses received from state agencies and political subdivisions; however, other hospitals and universities were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.

FISCAL IMPACT – Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This act establishes the "Missouri Parkinson's Disease Registry Act". Beginning January 1, 2024, the University of Missouri, or any medical research university in a memorandum of understanding with the University, shall establish a Parkinson's disease registry in order to collect data on the incidence of Parkinson's disease in Missouri, as well as other epidemiological data, as described in the act. All patients with Parkinson's disease or similar symptoms shall be given the opportunity to opt out of participation in the registry. The University shall establish an advisory committee in order to assist in the development of the registry and to determine the data to be collected.

Beginning August 28, 2024, all cases of Parkinson's disease and similar symptoms diagnosed or treated in Missouri shall be reported to the registry, as described in the act. The University may enter into agreements to share information in the registry with other states, the federal government, local health agencies, or researchers; provided, that the confidentiality of the information is maintained. The registry shall not contain any identifying information about patients. Finally, the University shall provide a report to the General Assembly before January 1 of each year summarizing the year's incidence of the disease by county and other demographic information.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
