FISCAL ANALYSIS

ASSUMPTION

§575.353 – Offenses against police dogs

Officials from the **Department of Corrections (DOC)** state this proposal intends to create a class A misdemeanor for any injury to a law enforcement animal that does not result in veterinary care; a class E felony for any injury to a law enforcement animal that results in veterinary care; a class D felony for any injury resulting in death of a law enforcement animal. Misdemeanors fall outside the purview of DOC, and there is no expected impact from that portion of the bill.

For each new nonviolent class E felony, the department estimates one person could be sentenced to prison and two to probation. The average sentence for a nonviolent class E felony offense is 3.4 years, of which 2.1 years will be served in prison with 1.4 years to first release. The remaining 1.3 years will be on parole. Probation sentences will be 3 years.

For each new nonviolent class D felony, the department estimates three people will be sentenced to prison and five to probation. The average sentence for a nonviolent class D felony offense is 5 years, of which 2.8 years will be served in prison with 1.7 years to first release. The remaining 2.2 years will be on parole. Probation sentences will be 3 years.

If this impact statement has changed from statements submitted in previous years, it could be due to an increase/decrease in the number of offenders, a change in the cost per day for institutional offenders, and/or an increase in staff salaries.

If the projected impact of legislation is less than 1,500 offenders added to or subtracted from the department's institutional caseload, the marginal cost of incarceration will be utilized. This cost of incarceration is \$26.545 per day or an annual cost of \$9,689 per offender and includes such costs as medical, food, and operational E&E. However, if the projected impact of legislation is 1,500 or more offenders added or removed to the department's institutional caseload, the full cost of incarceration will be used, which includes fixed costs. This cost is \$99.90 per day or an annual cost of \$36,464 per offender and includes personal services, all institutional E&E, medical and mental health, fringe, and miscellaneous expenses. None of these costs include construction to increase institutional capacity.

DOC's cost of probation or parole is determined by the number of P&P Officer II positions that are needed to cover its caseload. The DOC average district caseload across the state is 51 offender cases per officer. An increase/decrease of 51 cases would result in a cost/cost avoidance equal to the salary, fringe, and equipment and expenses of one P&P Officer II. Increases/decreases smaller than 51 offender cases are assumed to be absorbable.

In instances where the proposed legislation would only affect a specific caseload, such as sex offenders, the DOC will use the average caseload figure for that specific type of offender to calculate cost increases/decreases.

Oversight does not have any information contrary to that provided by DOC. Therefore, Oversight will reflect DOC's impact for fiscal note purposes.

Officials from the **Office of Attorney General (AGO)** assume any potential litigation costs arising from this proposal can be absorbed with existing resources. However, the AGO may seek additional appropriations if the proposal results in a significant increase in litigation or investigation.

Oversight does not have any information to the contrary. Therefore, Oversight assumes the AGO will be able to perform any additional duties required by this proposal with current staff and resources and will reflect no fiscal impact to the AGO for fiscal note purposes.

Officials from the **Office of State Courts Administrator (OSCA)** state there may be some impact but there is no way to quantify that currently. Any significant changes will be reflected in future budget requests.

Officials from the **Department of Natural Resources, the Department of Public Safety – (Capitol Police, Fire Safety and Missouri Highway Patrol), the Missouri Department of Conservation, the Missouri Office of Prosecution Services, the Office of the State Public Defender, the Phelps County Sheriff’s Department, the Kansas City Police Department, the St. Louis County Police Department, and the Eureka Fire Protection District – St. Louis** each assume the proposal will have no fiscal impact on their respective organizations.

Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note.

Oversight only reflects the responses received from state agencies and political subdivisions; however, other local law enforcement and fire protection districts were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.

FISCAL DESCRIPTION

This act creates "Max's Law."

Under current law, the offense of assault on a law enforcement animal is a class C misdemeanor.

This act provides that the offense of assault on a law enforcement animal is a class A misdemeanor, if the law enforcement animal is not injured to the point of requiring veterinary care or treatment; a class E felony if the law enforcement animal is seriously injured to the point of requiring veterinary care or treatment; and a class D felony if the assault results in the death of such animal.

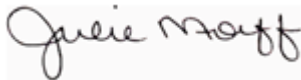

Additionally, exemptions to the offenses of agroterrorism, animal neglect, and animal abuse shall not apply to the killing or injuring of a law enforcement animal while working.

Finally, this act adds that any dog that is owned by or in the service of a law enforcement agency and that bites or injures another animal or human is exempt from the penalties of the offense of animal abuse.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
