## FISCAL ANALYSIS

### ASSUMPTION

#### §§172.280, 173.005 & 174.160 – Authority to confer degrees at colleges/universities

Officials from the **University of Missouri System (UM)** state the immediate fiscal impact of this bill on the University of Missouri System is difficult to predict, but it is reasonable to believe that starting new graduate, professional and engineering programs at other institutions will create increased administrative expenses at other institutions and cause a corresponding loss of state funding to the UM System and its campuses, relative to if said programs were offered in partnership with the University.

Officials from **Northwest Missouri State University** and the **University of Central Missouri (UCM)** assume the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary.

**Oversight** assumes UM could experience a negative fiscal impact as a result of this proposal since students could opt to attend another university to obtain their desired degree and that other universities in Missouri would incur additional administrative expenses starting up/adding new programs. The administrative expenses may or may not be offset by an increase in enrollment. Therefore, for fiscal note purposes, Oversight assumes this proposal will have a \$0 to unknown negative fiscal impact on universities. It is further assumed the net effect on tuition/fees lost by UM and received by other universities will not be significantly different. In addition, it is assumed the impact could be greater than \$250,000 if even one university decided to create a new graduate, professional and/or engineering program at their institution. Oversight will range the impact from \$0 to an unknown amount.

Officials from the **Department of Higher Education and Workforce Development** assume the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note.

**Oversight** only reflects the responses received from state agencies and political subdivisions; however, other universities were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.
