## FISCAL ANALYSIS

### ASSUMPTION

#### Section 163.045 - Additional funding to school districts with 169-day school calendar

Officials from the **Department of Elementary and Secondary Education (DESE)** assume the proposal will have no fiscal impact on their organization.

In addition, DESE provided the Department does not collect final calendars till the school year is complete, so based upon the School Year (SY) 2024 actual calendar only 49 school districts had calendars for all students claimed for state aid of 169 days or more. Please note, many LEA's are reviewing their SY 2025 calendars and considering adjustments based upon their LEA's specific benefit if they ensure calendars for all students claimed for state aid equal or exceed 169 days. DESE expects these numbers to fluctuate as schools make decisions and changes to their calendars.

Officials from the **Richland R-VI School District** assume schools attending for less than 169 days due to weather are scheduled to lose \$25,000 in funding for increasing teacher salaries.

**Oversight** notes Section 163.045 clarifies language relating to additional funding for teacher salaries that districts receive if the district has a school calendar with 169 school days. The clarification provided allows for inclement weather or authorized reductions to the number of days the district must be in session to qualify for the funding

**Oversight** has no way to determine how many schools will adjust their school calendar to a 169 day or more school term to obtain additional funding. There is potential that more schools will become eligible for the amount equal to one percent for fiscal years 2026 and 2027, or two percent for fiscal year 2028 and all subsequent fiscal years, of each district's preceding year's annual state aid entitlement moving forward. Therefore, Oversight will reflect a \$0 or Unknown cost to GR, as well as a \$0 to Unknown gain to school districts in the fiscal note.

**Oversight** received a limited number of responses from public schools related to the fiscal impact of this proposal. Oversight has presented this fiscal note on the best current information available. Upon the receipt of additional responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval to publish a new fiscal note. Oversight only reflects the responses received from state agencies and political subdivisions; however, other school districts, colleges and universities were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.

FISCAL IMPACT – Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This act provides that a school district shall not be deemed ineligible to receive certain state aid moneys on the basis that such school district was in session for fewer than 169 days in a school term because of inclement weather or a reduction of the required number of school days authorized by the Commissioner of Education under current law.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
