## **FISCAL ANALYSIS**

### **ASSUMPTION**

#### **§§105.1650 - 650.285 – State Department Provisions**

Officials from the **Office of Administration - Budget and Planning (B&P)** assume the following:

Section 173.240.7 eliminates the statutory creation of the Minority Environmental Literacy Advisory Committee. Section 173.240.8 also eliminates statutory authority for the members of committee to be reimbursed for certain expenses, which could result in cost savings. B&P defers to DHEWD for any fiscal estimates.

Section 196.1109 provides statutory authority for appropriated funds from the life sciences research trust fund to be appropriated to DED, rather than the life sciences research board. B&P defers to DED on if this change will result in any specific fiscal impacts.

Section 196.1115 provides statutory authority for appropriated funds from the life sciences research trust fund to be appropriated to DED, rather than the life sciences research board. B&P defers to DED on if this change will result in any specific fiscal impacts.

Section 196.1127 provides statutory authority for appropriated funds from the life sciences research trust fund to be appropriated to DED, rather than the life sciences research board. B&P defers to DED on if this change will result in any specific fiscal impacts.

Elimination of Section 208.533 removes statutory authority for the Commission on the Special Health, Psychological and Social Needs of Minority Older Individuals under DHSS. In doing so, the statutory authority for reimbursements to commission members is also removed, which may result in cost savings to the State. B&P defers to DHSS for any specific fiscal impact estimates.

Elimination of Section 208.856 removes statutory authority for the Missouri Quality Home Care Council and council members ability to be reimbursed for certain expenses. Eliminating statutory authority for reimbursements to council members may present cost savings to the State. B&P defers to DHSS for any specific fiscal impact estimates.

Elimination of Section 209.287 removes statutory authority for the Missouri Commission for the Deaf and Hard of Hearing Board of Certification of Interpreters and board members' ability to be reimbursed for certain expenses. Eliminating statutory authority for reimbursements to board members may present cost savings to the State. B&P defers to DESE for any specific fiscal impact estimates.

Section 209.292.2 eliminates a Missouri Commission for the Deaf and Hard of Hearing Board of Certification of Interpreters provision requiring reimbursement of evaluators for actual and necessary expenses incurred. Elimination of such statutory provision may result in cost savings to the State. B&P defers to DESE on any potential fiscal impact.

Section 209.318.1 renames the Missouri Commission for the Deaf and Hard of Hearing Board of Certification of Interpreters fund and states these funds, subject to appropriation, shall only be disbursed for payment of expenses of maintaining "the commission" rather than "the board". B&P defers to DESE on any potential fiscal impact.

Elimination of Section 210.102 removes statutory authority for the Coordinating Board for Early Childhood and the boards ability to charge fees, withdraw funds from a dedicated fund, and process reimbursements to board members for certain expenses. Elimination of these provisions may result in cost savings to the State. B&P defers to DESE for any specific fiscal impact estimates.

Section 261.235.3 removes the statutory authority for the AgriMissouri Advisory Commission for Marketing Missouri Agricultural Products to establish a fee structure for sellers electing to use the AgriMissouri trademark associated with Missouri agricultural products. Elimination of these fees may decrease TSR. B&P defers to MDA for any specific fiscal impact estimates.

Section 261.235.5 removes the statutory authority for AgriMissouri Advisory Commission for Marking Missouri Agricultural Products to be reimbursed for actual and necessary expenses in the performance of their official duties on the commission. Elimination of such provision may decrease State costs. B&P defers to MDA for any specific fiscal impact estimates.

Section 643.173.2 removes the statutory authority for a Small Business Compliance Advisory Committee and the ability for such committee members to be reimbursed for actual and necessary expenses incurred in the performance of their duties while at committee meeting. Elimination of such provisions may decrease State costs. B&P defers to DNR for any specific fiscal impact estimates.

Elimination of Section 650.125 removes the statutory authority for the Missouri Cybersecurity Commission and the ability for such commission members to be reimbursed for certain expenses. Elimination of such provisions may decrease State costs. B&P defers to DPS for any specific fiscal impact estimates.

Elimination of Section 650.210 removes the statutory authority for the Board of Boiler and Pressure Vessel Rules and the ability for such board members to be reimbursed for certain expenses. Elimination of such provisions may decrease State costs. B&P defers to DPS for any specific fiscal impact estimates.

Sections 650.275 and 650.277 in this legislation remove statutory authority for the Board of Boiler and Pressure Vessel Rules to set certain fees authorized in section 650.200 - 650.290 and

instead vests that authority in the Department of Public Safety. B&P defers to DPS for any specific fiscal impact estimates.

Officials from the **Department of Higher Education and Workforce Development**, the **Department of Elementary and Secondary Education**, the **Department of Natural Resources**, the **Department of Health and Senior Service** and the **Missouri Department of Agriculture** assume the proposal will have no fiscal impact on their organization.

Although the above-mentioned agencies have stated the proposal will have no fiscal impact on their agency, **Oversight** assumes this proposal, as noted by Office of Administration - Budget and Planning, could have some cost savings; Therefore, Oversight will reflect a \$0 to Unknown savings to the General Revenue Fund and Other State Funds as a result of the implementation of the above noted sections. Without additional information, Oversight assumes the savings will not exceed \$250,000.

Officials from the **Department of Economic Development (DED)** assume section 105.1650 requires DED (and all state departments) to annually compile a report for the general assembly administrative entities that have not convened a public meeting or conducted public business for the most recent 3-year period. DED assumes they will not need any additional FTE.

DED assumes section 196.1106 would establish DED to set up a framework for state-supported life science research hubs, ensuring they're collaborative, meet specific research criteria, and are overseen for effectiveness, with recent updates moving administrative control to DED. Funding is fully subject to appropriation; no dollar amounts are allocated in this legislation.

DED recommends 2.0 FTE to administer the program.

**Oversight** assumes Section 196.1106 removes the statutory authority for the Life Sciences Research Board to monitor the operation of the centers for excellence for life science research and instead vest that authority in the Department of Economic Development. Therefore, Oversight will reflect the estimated cost as provided by DED to the General Revenue Fund.

In response to a similar proposal from last year (SB 729), officials from the **Department of Public Safety – Directors Office (DPS)** stated given that DPS will now assume the responsibilities of the Boiler Pressure Vessel Board, which include: forming and promulgating rules, reviewing applications for and granting installation and operating permit for a pressure vessel of special design or construction, commission special inspectors, conduct examinations as required by section 650.250, hear examination appeals per section 650.250, suspend commissioned inspections and hear appeals of such actions per section 650.255, make revocation decisions and hear appeals, issue certificates per section 650.260, conduct reviews of appeals per section 650.285 - DPS will require at least two FTEs. One FTE would be an attorney to assume the additional legal work needed to be completed and another FTE to assist with the additional administrative work and duties transferred to DPS.

**Oversight** assumes Sections 650.275 and 650.277 remove the statutory authority for the Board of Boiler and Pressure Vessel Rules to set certain fees authorized in section 650.200 - 650.290 and instead vests that authority in the Department of Public Safety. Therefore, Oversight will reflect the estimated cost as provided by DPS to the General Revenue Fund.

Oversight notes, according to the Department of Public Safety - Directors Office, the current responsibilities of the Boiler Pressure Vessel Board lie within the Department of Public Safety – Fire Safety Division. Oversight assumes the Division of Fire Safety will have a savings as a result of this proposal. For fiscal note purposes, Oversight will reflect a \$0 to Unknown Savings to the Boiler and Pressure Vessel Safety Fund (1744).

Officials from the **Department of Corrections (DOC)** assume section 105.1650 of the legislation requires state departments with oversight of an administrative entity to provide an annual report of all such administrative entities that have not convened a public meeting or conducted public business for the most recent three-year period. As “administrative entity” is not defined in this section, it is unknown how this will impact DOC.

**Oversight** assumes DOC is provided with core funding to handle a certain amount of activity each year. Oversight assumes DOC could absorb the costs related to this section of the proposal.

Officials from the **Attorney General’s Office, Department of Commerce and Insurance, Department of Labor and Industrial Relations, Department of Mental Health, Department of Public Safety (Division of Alcohol and Tobacco Control, Capitol Police, Fire Safety, Missouri Gaming Commission, Missouri Veterans Commission, State Emergency Management Agency), Department of Revenue, Department of Social Services, Joint Committee on Legislative Research (Legislative Research and Oversight Division), Missouri Consolidated Health Care Plan, Missouri Department of Conservation, Missouri Department of Transportation, Missouri Ethics Commission, Missouri House of Representatives, Missouri Lottery Commission, Missouri National Guard, Missouri Senate, Missouri State Employee's Retirement System, Office of Administration (Administrative Hearing Commission, Commissioner’s Office), Office of the Governor, Office of the Lieutenant Governor, Office of the State Auditor, Office of the State Courts Administrator, Office of the State Public Defender and State Tax Commission** each assume the proposal will have no fiscal impact on their respective organizations for this proposal.

**Oversight** notes that the above mentioned agencies have stated the proposal would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

### Rule Promulgation

Officials from the **Joint Committee on Administrative Rules** assume this proposal is not anticipated to cause a fiscal impact beyond its current appropriation.

Officials from the **Office of the Secretary of State (SOS)** note many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with its core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

FISCAL IMPACT – Small Business

No direct fiscal impact on small businesses would be expected as a result of this proposal.

## FISCAL DESCRIPTION

This act requires each state department with oversight of an administrative entity to submit an annual report to the General Assembly detailing any administrative entity that has not convened a public meeting or conducted public business during the three year period ending on August 28th of such year.

The act further repeals and reassigns duties for a number of administrative entities. The Board of Boiler and Pressure Vessel Rules is repealed and its duties assigned to the Department of Public Safety. The Board for Certification of Interpreters repealed and its duties assigned to the Missouri Commission for the Deaf and Hard of Hearing. The Life Sciences Research Board is repealed and its duties assigned the Department of Economic Development. The act repeals the Missouri Quality Home Care Council is repealed as well as all duties of the Council.

The act repeals the following entities: the AgriMissouri Advisory Commission for Marketing Missouri Agricultural Products; the Coordinating Board for Early Childhood; the Minority Environmental Literacy Advisory Committee; the Missouri Cybersecurity Commission; the Small Business Compliance Advisory Committee; and the Commission on the Special Health, Psychological and Social Needs of Minority Older Individuals.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
