FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Revenue (DOR)** note this proposal creates a constitutional amendment creating a new state fund. If the amendment fails to be adopted, it will not have a fiscal impact. If the amendment is adopted then it would have the following impact.

This proposal would create a new state fund called the Show-Me Prosperity Fund. It says the General Assembly shall appropriate money to the fund for the purpose to eliminate state-imposed taxes and secure the state's financial future. This proposal gives the Office of the State Treasurer (STO) the authority to invest the money in the fund in exchange-traded funds tracking stock performance of the Standard and Poor's 500.

Starting January 1, 2127, or when the balance in the fund reaches \$2 trillion the money in the funds would then need to be invested in instrumentalities bearing at least 3% interest. Except for the investment of the funds, no money may be appropriated from this fund until the balance reaches \$2 trillion or January 1, 2027, whichever comes first. Once the balance hits the \$2 trillion then the STO is to notify the General Assembly. At that point, the General Assembly can begin the process of using the funding to eliminate the state personal income tax, the state sales and use tax, the state corporate income tax and then any other state-imposed taxes.

DOR notes this proposal requires that the General Assembly appropriate the money to the fund to even begin this process should this amendment pass. DOR defers to the STO for the fiscal impact of this proposal. DOR will not be impacted until such time as a tax is lowered or eliminated.

Officials from the **Office of Administration - Budget and Planning (B&P)** note this proposal:

- Has no direct impact on B&P.
- Has no direct impact on general or total state revenues.
- Will not impact the calculation pursuant to Art. X, Sec. 18(e).

Officials from the **Office of the State Treasurer, Platte County Board of Elections, St. Louis City Board of Elections, Missouri House of Representatives, Missouri Senate, and the St. Louis County Board of Elections** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Officials from the **Office of the Secretary of the State (SOS)** assume, each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, joint resolutions proposing a constitutional amendment are submitted to a vote of the people at the next general election. Article XII section 2(b) of the Missouri Constitution authorizes the governor to order a special election for constitutional amendments referred to the people. If a special election is called to submit a joint resolution to a vote of the people, Section 115.063.2, RSMo., requires the state to pay the costs. The cost of a special election has been estimated to be \$9 million based on the cost of past primary and general election reimbursements.

The Secretary of State's office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY27 publication cycle, the SOS estimates publication costs at \$515,000 per ballot measure. This amount is an average and will be subject to change based on the number of petitions received, length of those petitions, and rates charged by newspaper publishers. In a year where many lengthy measures must be published, the Secretary of State's Office may need to budget up to \$10,000,000 to ensure sufficient funding is available to meet its constitutional obligations for the election cycle.

The Secretary of State's office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, the SOS reserves the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Oversight has reflected, in this fiscal note, the state potentially reimbursing local political subdivisions the cost of having this joint resolution voted on during a special election in fiscal year 2027. This reflects the decision made by the Joint Committee on Legislative Research that the cost of the elections should be shown in the fiscal note. Per the SOS, the cost is estimated at \$9 million based on past costs as well as the anticipation of significant increases in future election-related expenses. The next scheduled statewide general election is in November 2026 (FY 2027). It is assumed the subject within this proposal could be on this ballot; however, it could also be on a special election called for by the Governor (a different date). Therefore, Oversight will reflect a potential election cost reimbursement to local political subdivisions in FY 2027.

Oversight notes this proposal allows the General Assembly to appropriate funds for the newly created Show-Me Prosperity Fund. Oversight is unable to estimate the timing or amount of any future appropriations to the Show-Me Prosperity Fund. Therefore, Oversight will show a range

of \$0 (not approved by voters/not appropriated) to an unknown negative fiscal impact to General Revenue.

Oversight notes once the Show-Me Prosperity Fund reaches \$2 trillion or 2127, whichever is sooner, the accrued annual interest can be used to eliminate certain state taxes; until then, interest is reinvested.

Oversight assumes the reduction and elimination of tax(es) would require implementing language and any fiscal impact would be calculated in the implementing language's fiscal note.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other local political subdivisions were requested to respond to this proposed legislation but did not. Upon the receipt of additional responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval to publish a new fiscal note. A general listing of political subdivisions included in our database is available upon request.

FISCAL DESCRIPTION

This constitutional amendment, if approved by voters, establishes the "Show-Me Prosperity Fund" for the purpose of eliminating state taxes and securing this state's long-term financial independence. The fund shall consist of money appropriated to it by the General Assembly, and may also receive gifts, donations, grants, and bequests from any source.

The State Treasurer shall invest the fund in exchange-traded funds tracking the performance of the Standard & Poor's 500, or a comparable successor index to be determined by law. No money shall be appropriated from the fund until January 1, 2127, until the fund reaches \$2 trillion, or until the State Treasurer notifies the General Assembly that the balance in the fund is sufficient to eliminate state taxes, whichever occurs first, at which time the fund shall be invested in the manner specified in the Constitution for other funds, with preference given to certain investments bearing at least 3% interest annually, and the interest from the fund shall be used to eliminate or reduce state taxes as provided in the amendment.

The State Treasurer may reinvest a portion of the annual interest generated by the fund once all state-imposed taxes have been eliminated. Upon the elimination or reduction of any tax as provided in the amendment, no such tax shall thereafter be enacted or be increased beyond the rate as reduced pursuant to the amendment.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
