FISCAL ANALYSIS

ASSUMPTION

§332.700 – Dentist and Dental Hygienist Compact

Officials from the **Department of Commerce and Insurance (DCI)** state there are now 12 states that have passed the compact language. The Council of State Governments is estimating that it will take another 18 to 24 months before compact privileges are able to be given. There is no timeframe on when the rules establishing the costs will be promulgated. It will be sometime before they start issuing privileges.

The department believes the costs of this bill can be absorbed within current appropriations. However, should the cost exceed the anticipated amount, the department would request an increase to FTE and/or appropriations as appropriate through the budget process.

According to section 332.031, RSMo, the board shall set fees at a level to produce revenue which does not substantially exceed the cost and expense of administering this chapter. Therefore, this legislation may require the board to raise licensure fees in order to cover the cost and expense of administering the compact at some point in the future.

Oversight notes the DCI has stated the cost of the proposal could be absorbed with current appropriations or the cost could be offset with raising licensure fees. For fiscal note purposes, Oversight will reflect a zero impact on the fiscal note.

Rule Promulgation

Officials from the **Joint Committee on Administrative Rules** assume this proposal is not anticipated to cause a fiscal impact beyond its current appropriation.

Officials from the **Office of the Secretary of State (SOS)** note many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with its core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

FISCAL IMPACT – Small Business

Licensed Dentist and Dental Hygienist could have a direct fiscal impact as a result of this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
