FISCAL ANALYSIS

ASSUMPTION

§115.1600 - Creates New Provisions Relating to Elections

Officials from the **Department of Corrections (DOC)** state section 115.1600 subsection 2 of the proposed legislation appears to suggest that no government entity shall purchase any services from an entity unless the entity completes a certification. This certification must be renewed annually. Using a broad definition of services because the proposed legislation does not define them; on average, the department procures services from over 500 different entities. Any delay could be a safety and security issue. The department would need to add one Procurement Officer II position with an induction salary of \$65,791 to maintain the annual certifications.

Oversight assumes DOC is provided with core funding to handle a certain amount of activity each year. Oversight assumes DOC could absorb the costs related to this proposal. If multiple bills pass which require additional staffing and duties at substantial costs, DOC could request funding through the appropriation process.

Officials from the **Office of Attorney General (AGO)** assume any potential litigation costs arising from this proposal can be absorbed with existing resources. The AGO may seek additional appropriations if the proposal results in a significant increase in litigation or investigation costs.

Oversight does not have any information to the contrary. Therefore, Oversight assumes the AGO will be able to perform any additional duties required by this proposal with current staff and resources and will reflect no fiscal impact to the AGO for fiscal note purposes.

Officials from the **Office of the State Public Defender (SPD)** state per the National Public Defense Workload Study, the new charge contemplated by this change to Section 115.1600, would take approximately fourteen hours of SPD work for reasonably effective representation. If one hundred cases were filed under this section in a fiscal year, representation would result in a need for an additional attorney. Because the number of cases that will be filed under this statute is unknown, the exact additional number of attorneys necessary is unknown. Each case would also result in unknown increased costs in the need for core staff, travel, and litigation expenses. However, if the charge was classified as a class D misdemeanor no jail time would be authorized and the cases would not qualify for SPD representation.

Oversight assumes this proposal will create a minimal number of new cases and that the SPD can absorb the additional caseload required by this proposal with current staff and resources. Therefore, Oversight will reflect no fiscal impact to the SPD for fiscal note purposes. However, if multiple bills pass which require additional staffing and duties, the SPD may request funding through the appropriation process.

Officials from the **Office of the Secretary of State, Office of the State Courts Administrator, and Platte County Board of Elections** assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.
