

COMMITTEE ON LEGISLATIVE RESEARCH
OVERSIGHT DIVISION

FISCAL NOTE

L.R. No.: 5624S.03I
Bill No.: SB 904
Subject: Drugs and Controlled Substances; Department of Health and Senior Services;
Health Care; Public Health; Department of Public Safety
Type: Original
Date: January 13, 2026

Bill Summary: This proposal creates provisions relating to cannabis.

FISCAL SUMMARY

ESTIMATED NET EFFECT ON GENERAL REVENUE FUND

FUND AFFECTED	FY 2027	FY 2028	FY 2029
General Revenue**/**	(Could exceed \$241,935)	(Could exceed \$314,373)	(Could exceed \$346,235)
Total Estimated Net Effect on General Revenue	(Could exceed \$241,935)	(Could exceed \$314,373)	(Could exceed \$346,235)

*DOC notes that current capacity will be met by July 2029 (FY 2030) or potentially much sooner. Therefore, Oversight has made the decision to reflect the marginal cost of incarceration up to an unknown cost if DOC needs to add staff and/or rehabilitate, expand or construct additional capacity. Oversight assumes the unknown cost has the potential to exceed \$250,000.

** The fiscal impact to DPS/ATC will be \$0 or unknown based on whether or not DPS/ATC is called upon by the AGO to enforce the provisions of §195.900. Oversight assumes the cost could be substantial, exceeding \$250,000.

ESTIMATED NET EFFECT ON OTHER STATE FUNDS

FUND AFFECTED	FY 2027	FY 2028	FY 2029
Missouri Veterans' Health and Care Fund (1606)*	(Unknown, Could be substantial)	(Unknown, Could be substantial)	(Unknown, Could be substantial)
Veterans, Health, and Community Reinvestment Fund (1608)*	Less than \$2,841,642	Less than \$3,409,970	Less than \$3,409,970
School District Trust Fund (1688)	\$42,625	\$51,150	\$51,150
Conservation Commission Fund (1609)	\$5,328	\$6,394	\$6,394
Parks and Soils State Sales Tax Fund(s) (1613 & 1614)	\$4,263	\$5,115	\$5,115
Total Estimated Net Effect on <u>Other</u> State Funds	Less than \$2,893,858	Less than \$3,472,629	Less than \$3,472,629

*DHSS estimates that unknown enforcement costs could exceed \$250,000 annually.

Numbers within parentheses: () indicate costs or losses.

ESTIMATED NET EFFECT ON FEDERAL FUNDS

FUND AFFECTED	FY 2027	FY 2028	FY 2029
Total Estimated Net Effect on <u>All</u> Federal Funds	\$0	\$0	\$0

ESTIMATED NET EFFECT ON FULL TIME EQUIVALENT (FTE)

FUND AFFECTED	FY 2027	FY 2028	FY 2029
General Revenue	3 FTE	3 FTE	3 FTE
Total Estimated Net Effect on FTE	3 FTE	3 FTE	3 FTE

☒ Estimated Net Effect (expenditures or reduced revenues) expected to exceed \$250,000 in any of the three fiscal years after implementation of the act or at full implementation of the act.

☒ Estimated Net Effect (savings or increased revenues) expected to exceed \$250,000 in any of the three fiscal years after implementation of the act or at full implementation of the act.

ESTIMATED NET EFFECT ON LOCAL FUNDS

FUND AFFECTED	FY 2027	FY 2028	FY 2029
	Could exceed \$1,621,157	Could exceed \$1,945,388	Could exceed \$1,945,388
Local Government	Could exceed \$1,621,157	Could exceed \$1,945,388	Could exceed \$1,945,388

FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration - Budget and Planning**, **Missouri Office of Prosecution Services**, and **Office of the State Courts Administrator** did not respond to **Oversight's** request for fiscal impact for this proposal.

§195.010 – Definition of Industrial Hemp

Officials from the **Department of Revenue (DOR)** state this provision modifies the definition of industrial hemp. Modifying the definition will not fiscally impact DOR.

§195.800 - Disclosure of Certain Information

Officials from the **Department of Corrections (DOC)** state as follows:

The legislation would make it illegal for state employees to disclose to unauthorized third parties (including the federal government) the personal information of those who have applied for or received authorization to use medical marijuana. It would also make it illegal to engage in the cultivation, production, manufacturing, testing, transportation, and retail sale of cannabis and marijuana products without licenses from the state.

Section 195.800 creates a class E felony offense when a state agency discloses to the federal government, any federal employee or unauthorized third party the statewide list or individual information of persons who applied for or obtained a qualifying patient identification card, a qualifying patient cultivation identification card, or a primary caregiver identification card.

As these are new crimes, there is little direct data on which to base an estimate, and as such, the department estimates an impact comparable to the creation of a new class E felony.

For each new nonviolent class E felony, the department estimates one person could be sentenced to prison and two to probation. The average sentence for a nonviolent class E felony offense is 3.4 years, with 1.4 years until first release. The remaining 1.3 years could be on parole. Probation sentences could be 3 years.

The cumulative impact on the department is estimated to be 2 additional offenders in prison and 7 additional offenders on field supervision by FY 2029.

Oversight does not have information to the contrary and therefore, Oversight will reflect the cumulative estimates as provided by the DOC under section 195.900.

Officials from the **DOR** state this provision prohibits the release of the list of names of people who have received an identification card under the marijuana laws. DOR does not maintain the list of people with identification cards, so this provision will not fiscally impact DOR.

§195.819 – Marijuana Dispensary Records

Oversight notes §195.819 provides that marijuana dispensary facilities shall not create or retain any record containing the consumer's identifying information upon a customer's written request. Any dispensary facility that violates the provisions of this section shall be assessed a fine of \$2,500 per occurrence.

Officials from the **DOR** state this provision allows a customer to request to have their customer identifying information removed from marijuana dispensary records. This will not fiscally impact DOR.

§195.900 - "Intoxicating Cannabinoid Control Act"

Officials from the **DOR** state this provision has an emergency clause stating it is effective immediately. For the purpose of the fiscal note, DOR assumes this proposal starts July 1, 2026.

This proposal declares its intent that hemp-derived cannabinoids products be regulated pursuant to the legal framework contained in Article XIV of the Missouri Constitution. Article XIV is the regulation and taxation provisions governing the growing and selling of marijuana. DOR does not collect information on the type or number of these products on the market.

The General Assembly has indicated that these products are being sold in numerous retail locations. Currently, when sold at a retail location the products are subject to the state 4.225% sales tax as well as a local sales tax. This proposal moves these products from a retail location to a marijuana dispensary. DOR notes that regardless of where the product is sold, the sales tax is owed.

However, DOR notes that Article XIV Section 2 assesses an additional state tax of 6% on all marijuana sales and allows locals to assess a 3% tax, which are considered excise taxes. This would now subject these products to the excise tax. DOR notes that Missouri makes up 2.05% of the total U.S. market share of all hemp-derived cannabinoids based on research found. In 2023, that was \$56,832,841 of the \$2,774,925,672 in U.S. sales.

DOR notes this proposal would become effective July 1, 2026; however, DOR is unsure exactly how long it will take to get these products relocated to a dispensary for sale. For fiscal note purposes only, DOR assumes this tax will begin August 1, 2027. DOR notes that sales tax and marijuana tax are both collected at the time of the sale but remitted the following month. Therefore, there will only be 10 months of impact during FY 2027.

Article XIV states that the marijuana tax is to be deposited into the Veterans, health, and community reinvestment fund. DOR could expect \$2,841,642 in FY 2027 and \$3,409,970 each year thereafter from the excise tax should all these products be moved to dispensaries.

DOR notes that sales tax is applied after excise tax as it is applied to the entire price of the product. Therefore, the amount of sales tax collected would increase due to the amount of excise tax collected. DOR notes that this could generate an additional \$216,108 in total state revenue from the sales tax and \$240,403 in local sales tax.

Estimated Revenue Impact - Hemp-derived Cannabinoids

State Funds	FY 2027 Low	FY 2028+ Low
Veterans, Health, and Community Reinvestment Fund (excise tax)	\$2,841,642	\$3,409,970
General Revenue	\$127,874	\$153,449
School District Trust Fund	\$42,625	\$51,150
Conservation Commission Fund	\$5,328	\$6,394
Park, Soil & Water Funds	\$4,263	\$5,115
Total State Revenues	\$3,021,732	\$3,626,078

Local Funds	FY 2027 Low	FY 2028+ Low
Local Excise Funds	\$1,420,821	\$1,704,985
Local Sales Tax Funds	\$200,336	\$240,403
Total Local Funds	\$1,621,157	\$1,945,388

Additionally, DOR will need to modify tax forms (\$2,200) and computer programs (\$7,547) to accommodate the provisions of this proposal.

Oversight does not have information to the contrary and therefore, Oversight will reflect the estimates as provided by the DOR.

Oversight notes §195.900 provides that any person or entity that violates the provisions of this section shall be subject to a fine of \$5,000 per transaction and shall be guilty of a class D felony.

Violations of §§195.819 and 195.900 could result in fines or penalties. Oversight also notes per Article IX Section 7 of the Missouri Constitution fines and penalties collected by counties are distributed to school districts. Fines vary widely from year to year and are distributed to the school district where the violation occurred. Oversight will reflect a positive fiscal impact of \$0 or Unknown to local school districts. For simplicity, Oversight will not reflect the possibility that fine revenue paid to school districts may act as a subtraction in the foundation formula.

In response to similar legislation, HB 2641 (2026), Oversight reached out to DHSS for an estimate of potential fines under §§195.819 and 195.900. Officials from the **Department of Health and Senior Services (DHSS)** stated that the Division of Cannabis Regulation (DCR) does not have a way to estimate how much will be collected.

Due to a lack of information, **Oversight** assumes revenue from fines to be more than \$250,000 annually for both sections combined.

Officials from the **DOC** state section 195.900 creates a class D felony offense when a person or entity that violates the provisions of this section shall be subject to a fine of five thousand dollars per transaction and shall be guilty of a class D felony.

As these are new crimes, there is little direct data on which to base an estimate, and as such, the department estimates an impact comparable to the creation of a new class D felony.

For each new nonviolent class D felony, the department estimates three people could be sentenced to prison and five to probation. The average sentence for a nonviolent class D felony offense is 5 years, with 1.7 years until first release. The remaining 2.2 years could be on parole. Probation sentences could be 3 years.

Officials from the **DHSS** state as follows:

Section 195.900.3 of the proposed legislation subjects all hemp-derived cannabinoids to regulations at least as strict as those in Article XIV Sections 1 and 2 of the Missouri Constitution.

Section 195.900.4 of the proposed legislation considers hemp-derived cannabinoids products to be considered marijuana under Article XIV and puts hemp-derived cannabinoids under the same regulatory framework of Article XIV.

The Department of Health and Senior Services – Division of Cannabis Regulation currently has a license limit, with all available licenses currently awarded. DHSS-DCR also assumes that most hemp-derived cannabinoids sold in the unregulated market are produced through chemical conversion and would not be allowed for manufacturing or sale within the regulatory framework of Article XIV. Therefore, DHSS-DCR expects to be able to absorb costs related to this proposed legislation.

Current demand of hemp-derived cannabinoids relative to marijuana regulated by Article XIV is unknown, therefore, the change in sales in the regulated market and the resulting revenue is unknown.

195.900.9 gives enforcement authority to DHSS to enforce the provisions of this section and to prohibit unregulated activities outside of licensed facilities. DHSS-DCR notes that the proposed legislation does not provide enforcement mechanisms and therefore, DHSS-DCR determines an unknown impact.

Oversight does not have information to the contrary and therefore, Oversight will reflect the estimates as provided by the DHSS for “unknown” expenditures related to enforcement from the Missouri Veterans Health and Care Fund and the Veterans Health and Community Reinvestment Fund. However, Oversight will reflect the DOR estimates for tax revenue.

Officials from the **Department of Public Safety (DPS), Division of Alcohol and Tobacco Control (ATC)** assume the proposal will have no fiscal impact on their organization.

Oversight notes section 195.900.10 gives concurrent enforcement authority to the Attorney General’s Office (AGO), DHSS and DPS (ATC and Missouri Highway Patrol), with the AGO having primary jurisdiction over enforcement. Therefore, Oversight assumes the fiscal impact to DPS/ATC will be \$0 or unknown based on whether or not DPS/ATC is called upon by the AGO to enforce the provisions of this section. Because DPS/ATC does not have a corresponding dedicated fund for this purpose, costs related to enforcement are assumed to be from general revenue.

Oversight notes, in response to somewhat similar proposals from previous years, both DPS-ATC and DHSS indicated substantial costs for enforcement. Oversight has requested additional information from both agencies. Upon the receipt of additional information, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval to publish a new fiscal note.

Officials from the **Missouri Department of Agriculture (MDA)** state the impact of section 195.900.9 (1) depends on if the Attorney General mandates MDA to enforce any provisions of this law. If so, MDA could see a fiscal impact equivalent to their previous hemp program, which was \$426,289 General Revenue in FY 2023. That expenditure includes personal service and equipment & expense for 5 FTE.

Oversight does not have any information to the contrary. Oversight notes MDA last had hemp related expenses in FY 2023. MDA’s enforcement role, if any, may or may not have similar expenditures as 2023. Therefore, Oversight will reflect an unknown impact to GR in the fiscal note for MDA.

Responses regarding the proposed legislation as a whole

Officials from the **Attorney General’s Office (AGO)** assume this proposal will increase personnel costs. Two Assistant Attorneys General and one investigator will be necessary to handle the increased caseload.

Oversight does not have information to the contrary and therefore, Oversight will reflect the estimates as provided by the AGO.

Officials from the **DOC** assume the cumulative impact on the department is estimated to be 8 additional offenders in prison and 16 additional offenders on field supervision by FY 2029.

The cumulative impact of these new Class E and Class D felonies under §195.800 and §195.900 would be 10 more offenders in prison and 23 more in field supervisions by FY 2029.

	# to prison	Cost per year	Total Costs for prison	Change in probation & parole officers	Total cost for probation and parole	# to probation & parole	Grand Total - Prison and Probation (includes 2% inflation)
Year 1	4	(\$11,123)	(\$42,638)	0	\$0	7	(\$31,515)
Year 2	8	(\$11,123)	(\$90,764)	0	\$0	14	(\$90,764)
Year 3	10	(\$11,123)	(\$115,724)	0	\$0	23	(\$115,724)
Year 4	10	(\$11,123)	(\$118,038)	0	\$0	26	(\$118,038)
Year 5	10	(\$11,123)	(\$120,399)	0	\$0	29	(\$120,399)
Year 6	10	(\$11,123)	(\$122,807)	0	\$0	29	(\$122,807)
Year 7	10	(\$11,123)	(\$125,263)	0	\$0	29	(\$125,263)
Year 8	10	(\$11,123)	(\$127,768)	0	\$0	29	(\$127,768)
Year 9	10	(\$11,123)	(\$130,324)	0	\$0	29	(\$130,324)
Year 10	10	(\$11,123)	(\$132,930)	0	\$0	29	(\$132,930)

The department will assume a marginal cost (multiplied by number of offenders) for any projected increase or decrease in the incarcerated population. Marginal cost is \$30.47 per day or an annual cost of \$11,123 per offender which includes costs such as medical, food, wages and operational E&E. The unknown amount is a result of the uncertainty in the growth of the underlying offender population. The impact of any new legislation combined with the growth of the underlying population could result in the tiered approach below in order to meet the population demands.

1. Fully staffing their current capacity (27,368), which is habitable, but they do not have the staffing resources for all bed space.
2. Rehabilitating current space that is not currently habitable and obtaining staffing resources for that space (requires capital improvements).
3. Expanding new capacity by adding housing units or wings to existing prisons and obtaining staffing resources for that space (requires capital improvements).
4. Constructing a new prison and obtaining staffing resources. Based on current construction projects in other Midwest states, the department estimates the cost of constructing a new 1,500-bed maximum security prison at approximately \$825 million to \$900 million plus annual operating costs of approximately \$50 million (requires capital improvements).

The department's population projections indicate current physical capacity will be met by July 2029; however recent trends indicate that capacity could be met much sooner. Should new construction be the result of the increasing offender population, the full cost per day per offender would be used which is \$106.96 or an annual cost of \$39,040. This includes all items in the marginal cost calculation plus fringe, personal service, utilities, etc.

DOC's cost of probation or parole is determined by the number of P&P Officer II positions that are needed to cover its caseload. The DOC average district caseload across the state is 51 offender cases per officer. An increase/decrease of 51 cases would result in a cost/cost avoidance equal to the salary, fringe, and equipment and expenses of one P&P Officer II. Increases/decreases smaller than 51 offender cases are assumed to be absorbable.

In instances where the proposed legislation would only affect a specific caseload, such as sex offenders, the DOC will use the average caseload figure for that specific type of offender to calculate cost increases/decreases.

* If this impact statement has changed from statements submitted in previous years, it could be due to an increase/decrease in the number of offenders, a change in the cost per day for institutional offenders, and/or an increase in staff salaries.

Oversight does not have information to the contrary and therefore, Oversight will reflect the estimates as provided by the DOC. Oversight notes that the early implementation of section 195.900 due to the emergency clause for this section is included in the DOC estimate.

Officials from the **Branson police Department** state their concern is a problem that occurred in Colorado. If a patient can request that their information not be recorded, there is no way for a registry to prevent over purchasing of marijuana products. The problem with this is it directly and negatively impacts kids. In Colorado, since they had no registry, the medical patients could go to each dispensary, with several on the same block, and by 2 ounces at each location within minutes of each other. Since they could not consume this much, they sold it to the high school kids. Every bit of marijuana that was seized at the high school was still in the original dispensary containers. This not only affects the kids but also results in negative financial impact on police, as law enforcement is tasked with the associated problems that comes with the flooding of schools with medical marijuana.

Oversight does not anticipate increased costs to local law enforcement.

Officials from the **Department of Elementary and Secondary Education, Department of Labor and Industrial Relations, Department of Mental Health, Department of Natural Resources, MoDOT & Patrol Employees' Retirement System, Department of Public Safety (Office of the Director, Missouri Highway Patrol), Department of Social Services, Missouri Department of Transportation, Office of Administration (OA), OA - Administrative Hearing Commission, Office of the State Public Defender, City of Kansas City, Newton County Health Department, Phelps County Sheriff's Department, Blue Springs Police**

Department, Kansas City Police Department, St. Louis County Police Department, County Employees Retirement Fund, Kansas City Civilian Police Employees' Retirement, Kansas City Police Retirement System, Metro St. Louis Sewer District Employees Pension Plan, Public Education Employees' Retirement System, Sheriff's Retirement System, High Point R-III School District, Northwest Missouri State University and University of Central Missouri each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Officials from the **Department of Public Safety - Missouri Veterans Commission (MVC)** defer to the DHSS as to the amount of the fiscal impact. MVC believes an attempt to close the "Farm Bill loophole" that MVC heard about at their October 2025 Commission meeting may result in a possible positive fiscal impact on MVC.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other cities, counties, local health departments, sheriffs, police, EMS, schools, hospitals and colleges were requested to respond to this proposed legislation but did not. Upon the receipt of additional responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval to publish a new fiscal note. A general listing of political subdivisions included in our database is available upon request.

Rule Promulgation

Officials from the **Joint Committee on Administrative Rules** assume this proposal is not anticipated to cause a fiscal impact beyond its current appropriation.

Officials from the **Office of the Secretary of State (SOS)** note many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with its core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

<u>FISCAL IMPACT – State Government</u>	FY 2027 (12 Mo.)	FY 2028	FY 2029
GENERAL REVENUE			
<u>Cost – AGO (§§195.010, 195.800, 195.819 and 195.900) p.10</u>			
Personal service	(\$173,333)	(\$212,160)	(\$216,403)

ESTIMATED NET EFFECT ON LOCAL POLITICAL SUBDIVISIONS	<u>Could exceed \$1,621,157</u>	<u>Could exceed \$1,945,388</u>	<u>Could exceed \$1,945,388</u>

FISCAL IMPACT – Small Business

Some small business hemp retailers may find the regulations and fines burdensome. Those businesses may also find an increase in customers who did not previously purchase their products due to lack of product regulation.

FISCAL DESCRIPTION

Under this act, no state agency or state employee shall disclose any personally identifying information of persons who have applied for or obtained a qualifying patient identification card, a qualifying patient cultivation identification card, or primary caregiver identification card for

medical marijuana to the federal government or any federal employee, or other unauthorized third party, unless required to do so pursuant to a subpoena or court order issued by a court. Any person who knowingly violates this act shall be guilty of a class E felony.

Upon the written request of a consumer, a marijuana dispensary shall not create or retain any record containing a consumer's identifying information. This provision shall not apply to any constitutionally-mandated record-keeping requirements relating to qualifying patients and primary caregivers. Dispensary facilities that violate the provisions of this act shall be assessed a \$2,500 fine per occurrence.

These provisions are substantially similar to SS/SCS/SB 54 (2025).

This act establishes the "Intoxicating Cannabinoid Control Act". Under this act, hemp-derived cannabinoid products shall be considered as marijuana and regulated as marijuana is regulated by the Department of Health and Senior Services under the Missouri Constitution. The Attorney General, the Department of Health and Senior Services, the Department of Public Safety, prosecuting and circuit attorneys, and other state agencies shall collaborate to enforce these provisions as described in the act.

Hemp and industrial hemp shall not be subject to regulation under these provisions. No person or entity engaged in the sale of cannabidiol (CBD), hemp, marijuana, cannabinoids, hemp-derived cannabinoid products, or related paraphernalia, other than a comprehensive or medical marijuana dispensary facility or a microbusiness dispensary facility, shall carry on, conduct, or transact business under a name that contains as part of the name the word "dispensary".

Any person or entity in violation of these provisions shall be guilty of a class D felony and subject to a fine of \$5,000 per transaction.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.

§195.900 of the proposal has an emergency clause.
