

MISSOURI SENATE

SENATOR MARY ELIZABETH COLEMAN Government Efficiency Committee, Chair State Capitol, Room 331A Jefferson City, MO 65101 PHONE: 573-751-4663 Fax: 573-751-1631

MEMORANDUM

DATE: February 11, 2025

- FROM: Senator Mary Elizabeth Coleman
- SUBJECT: Government Efficiency Portal Report

Please be advised the accompanying documentation contains substantive responses received from the Government Efficiency Portal. The included date range of the attached is Friday February 7, 2025 at 3:36 PM through Friday February 14, 2025 at 4:40 PM.

	I	1		1
		I own an electric vehicle. I need to buy a		
		sticker to pay for road usage and I agree with		
		that. I have to go to the license office, stand in line, with my paid personal property tax		
		receipt to buy it. I don't receive my personal		
		property bill until December. I pay it and it		
		goes through the mail then is processed and		
		then the receipt is returned by the mail. I get	1] Move the month to buy the	
		penalized if I don't buy my sticker in	sticker to be February, March or	
		December. I have to wait on the USPS [twice]	June. 2] Make the process to be	
		and the county to process to have the receipt	on line. I can get my plates on line	
2/7/2025	Administration Efficiency	to then stand in line to pay for the sticker.	why not this sticker?	Car Licensing

2/7/2025 Public Safety	Federal Protective Services refuses to investigate serious issues involving safety and security issues regarding the federal facilities in the Saint Louis region that contract guards state including documentation of these acts in writing. They allow multiple issues including acts that could potentially cause serious physical harm to contractors, employees, and the general public. There has been issues brought up to their attention that lead to thousands of dollars worth of damage.	Investigation into FPS and the security company running the Heartland region. Speak with multiple security contractors regarding the safety and security concerns involved with the lack of response or care from FPS. Removal of personnel that refuse to provide a safe working environment for all and remove individuals that retaliate against the individuals who speak out about these issues. Creating an electronic timing system where the VA and Social	FPS
2/8/2025 General Government	Why does SSA not have the ability to systematically verify monthly amounts citizens receive from the VA and Social Services?	Services communicate this information automatically could potentially eliminate over payment errors, not only in our state but in all of them.	VA/Social Services
2/8/2025 Health	Every time I call Medicaid I'm on hold for 4-6 hours. Their system for reporting and reviewing is opaque and outdated, it takes a 12 week course and 6 months waiting for credentials to be a "annual renewal processor." Inaccuracies and delays abound, each resulting in another day wasted on hold to talk to a person to resolve it.	A simple portal that lists all forms of verification received, which approved, current status, etc. would reduce the need to phone call. If you upload a form of documentation it could show as pending until reviewed, as well as the status of your case. It's just so inefficient that it's punishing.	Medicaid
2/8/2025 Transportation	The requirement for private vehicles to have two license plates is unnecessary. The apparatus on the front of the vehicle can interfere with new radar and sensor technologies on new and electric cars. Mounting this bracket requires drilling through the front of my Tesla, naturally causing damage. I cannot see a benefit for doubling the plates for every vehicle owner, as many states do not require them.	Abolish the rule for the front plate on passenger vehicles.	Front license plate
2/8/2025 Transportation	Unnecessary and unfair sticker costing \$100/yr for every electric vehicle. The point of an electric vehicle is cost savings. Why does the state discriminate those who purchase them?	Abolish the ridiculously expensive sticker that only steals our money for zero benefit.	Electric vehicle stickers
2/8/2025 Transportation	I think the MODOT "shoulder curb islands" as an attempt to reduce car accidents is a waste of money. Maybe you have data to back it up, but I dont think a "narrow road" feeling makes for safer roads. The "shoulder curb islands" may cause other problems, such as emergency vehicle access, snowplowing, and street cleaning.	islands" is to create safer roads by causing drivers to slow down, may I suggest actually enforcing the speed limit? Just start pulling people over for speeding, and I bet people change their behavior and start obeying the speed limit. Speed is the number one factor for injuries and fatalities in car accidents, right? Enforce the speed limit, and you will save lives. I live off of Kehrs Mill road, which is a very narrow road with no shoulder. The speed limit is 30mph. People drive like 45mph, tailgate, and even pass over double yellow lines. Excessive speed and tailgating happen pretty much every time I am on Kehrs Mill road. I have been passed over double yellow lines at least 5 times, and I dont even drive much at all. I lock my speed at 30-33mph, so there is no excuse for people to pass me over a double yellow or tailgate me. So, again, if you want people to slow down and obey the speed limit, I think all you have to do is start enforcing the law.	MODOT "shoulder curb islands"
	L o .		

	1	1	1
2/8/2025 Public Safety	The Springfield Police Department doesn't take citizen reports seriously and doesn't follow up. I have been victimized repeatedly over the past 10-15 years and nothing has ever been done about any of it. I've had a broken nose and charges were never filed, I've been attacked by men multiple times and charges were never filed, and no serious effort has ever been made to investigate any of the stalking and harassment myself and my family have dealt with over the last year. They are supposed to uphold the law, but, at least in my case, they make every attempt to avoid seeking justice for victims.	SPD needs better oversight than that of its own department to ensure that tax dollars are not being wasted to just pay someone to sit behind a desk and avoid hard work. This department constantly requests more tax payer dollars, yet we never see them follow up on reports or leads, never see them patrol, & barely even notice their presence. If you make a report to them you are either treated like a joke or a problem.	Local Gov Issue
2/8/2025 Finance	The city of Columbia has been spending millions of dollars on homeless services to nonprofit organizations, with no oversight whatsoever. A recent sunshine request found evidence that billing from these nonprofits has no tangible data associated with how the money is being spent, other than a requested amount.	I am requesting an investigation into these practices for accountability, as the money being spent is out of the general fund, and is subjective to the office of the city manager, with no oversight on where the money is being used and impacted.	Local Gov Issue
2/8/2025 Finance	Missouri's housing market is increasingly dominated by corporate landlords and hedge funds, who have bought up thousands of homes, driving up prices and making homeownership unattainable for working Missourians. In Kansas City alone, corporate landlords own nearly 20% of single-family rental properties, and five major firms have collectively acquired 8,000 homes in the past decade reducing supply and outbidding regular buyers. Across Missouri, institutional investors purchased 16% of all homes sold in 2021, further distorting the market. Meanwhile, Missouri provides tax breaks to corporations that pay low wages, forcing workers to rely on state-funded assistance programs. This is a massive inefficiency. Our tax dollars should not subsidize corporations that refuse to pay a livable wage	End corporate landlord tax incentives and instead offer tax breaks for owner-occupied home purchases to help Missouri families buy homes. Implement automatic cost-of- living wage adjustments to ensure wages keep pace with inflation, reducing dependence on government assistance programs. Cap excessive rent increases to prevent price gouging that forces families into state-funded housing programs.	Housing
	The roads in Kansas City are awful and are always being worked on. I literally watch them spend weeks repaving 55th oak, then after it was finished they dug up sections a week later. I bet there is so much fraud, and backroom	must be renovated/updated at the

r	1	1		
2/8/2025	Public Service Commission	The Efficiency Committee should look into the corruptness within the Missouri Public Service Commission. It is a useless utility agency that is supposed to protect consumers, however, gets lobbying funds and kickbacks from the utility provider to favor outcome of decisions. Plus, the Utility Commission engages themselves within politics, which isn't what the Utility Commission is made for. The Commissioners themselves are corrupt and accept bribes on behalf of the utility providers, and the Commissioners and Regulatory Judges within the Utility Commission abusive their legal authority and scope of what they can and can't do. All in all, they are no benefit to consumers that go to them with issues presented against the utility company. Instead the utility commissioners bribe money, therefore consumer complainants and paperwork disappear. Also, there is one specific regulatory judge within the Missouri Public Service Commission that helps Ameren Missouri make counterfeit documents and distribute them.	The Efficiency Committee should investigate the Commission in general, more importantly the Commissioners themselves should be investigated for taking bribes and lobbying money, along with the Regulatory Judges themselves. If they aren't going to be a service to consumers, there really is no point in having a utilities commission. Plus the utilities commission sin't supposed to engage or present themselves in political matters, like they have been for years. They are no more than a corrupt enterprise.	Efficiency Committee Investigation
2/10/2025	Finance	I have twice notified the MO DOR that my father in law passed away November 2021, yet today we received another certified letter requesting "assumed" sale taxes for a period in which he was dead. MO DOR "assumed" he sold items at a toy show in February 2022 as he did in years past, but again he died in November 2021. He did not attend the show. I believe the MO DOR has accessed to death certificates so please verify this and stop sending these notices as MO DOR is upsetting our family.	MO DOR is wasting money by sending letters out to deceased people. MO DOR should be able to verify the status of an individual electronically as I believe the State holds death certificates. The solution would be to make sure MO DOR has access to the proper systems and sets up a procedure to verify is a person has passed before wasting resources and time. Additionally no matter when you call MO DOR you can never talk to an individual. The line always states that they have a high call volume and go online.	DOR
2/10/2025	Education	Lots of MO public schools have favoritism, unequal pay and hidden secrets. Such as NKCSD #74 placing a young sexual predator in a full general population bus without an aid or para and not letting the driver know that separation is necessary for the protection of other students. If fact, why don't we have an aid or para on every bus, nationwide? And why is a federal contract job such as a school bus driver serving the community subjected to federal taxes while other federal contract jobs exempt? And there's teacher discounts everywhere, but good luck trying to find a school bus driver discount anywhere. And why does half of Missouri public schools still have invasive pear trees planted in front of the school? I've been working for several years trying to educate these educators about the damages these trees cause when they overtake entire fields, and yet it always falls on deaf ears.	jobs being available to put an extra adult in every school bus nationwide. This allows the driver to focus on the road and reduce distractions, and gives the students someone to collaborate with on the bus expectations. Schools should also be held to a higher standard when it comes to student safety. When the predator in my bus was acting on his perversions, I was alone in the office and caught off guard and told to step into my boss office where I was forced to watch on video, this child do unimaginable things behind by back. DFS was contacted and I, as the driver, was subjected to investigation. This is one of many traumatic experiences I've had in 10 years of serving kids. Not to mention covid, where I went from 56 hours a week down to 30. Filed unemployment as instructed by MSTA, and received about 4 weeks pay, but still less than a third of income lost due to the pandemic. Then we relocated, and 4 years later I found out I had to	Local Gov Issue

2/10/2025	Human Services	Consider cutting funding for Children's Division for the reasons that they waste state funds on placing kids in state care into foster homes without first seeking available family, maintain keeping children in foster care instead of placing with available family and do not place children in the least restrictive environment.	who visit family homes to ensure the children will end up in a	Childrens Division
		Llive in rural Lincoln County and the local		
		I live in rural Lincoln County and the local roads are serviced by the "Elsberry Special Road District". I am charged a special tax for this. However they refuse to maintain our road with many residences on it while they continues to maintain roads in the flood plain that no one lives on. Most of the people that live on our road moved here out of the flood plain and used to live down the roads that are	Maintain the rural roads that are

2/10/2025	Transportation	funding to be utilized by local agencies (cities) but requires MODOT oversight. MODOTs inefficiencies and lack of available staffing not only slows the process to a crawl, their over regulation of already regulated funds makes the delivery much more expensive. As a contractor I charge 10-15% more for any project that has direct MODOT involvement when it comes to pass through funding to local public agencies. MODOT complains about not being able to get partner funds out the door but makes it impossible to utilize the funds to the extent that projects are almost cheaper for cities and counties without their involvement. For 16 years I've watched this process fail the intent of the funds. Requiring two license plates is a waste of natural resources and requires tax payers to pay for something there is no benefit. As a	Pass funds directly to local agencies of a certain size, who are more equipped to administer their funds with post project audits.	MODOT Oversight

	The City of Republic is grossly overpaying the		
	City Administrator. A wage survey was		
	presented to the City Council and the Citizens		
	but intentionally left out the City Administrator at the direction of the		
	Administrator knowing that it would show that		
	for a City of that size he was grossly overpaid.		
	Every employee was included except him. His		
	contract also has severance clauses that are		
	exorbitant for the role, he is allowed a 3 year		
	severance for anything other than a felony. In		
	his short tenure he has increased his salary		
	nearly 300% and also increased the benefit		
	package for all employees. The employees		
	needed new benefits but all of this combined		
	and he is collecting a benefit package worth		
	more than \$500,000 for leading a city of only		
	20,000. He has also recommended and		
	implemented sales tax increases, substantial		
	utility rate increases while also taking away		
	city services such as the brush collection, city wide clean up and participation in city events		
	for the community. Utility rate increases were	Independent wage study to show	
	only necessary to facilitate commercial growth		
	of the city, but the citizens and council weren't		
	presented with an option to simply slow	of the necessity of \$100m of

We are paying for the premiums for the whole family why not let our kid be covered? The system in Mo forces	Vehicle Temporary Permits

		Is there anything more wasteful and		
		unnecessary and more costly to taxpayers in		
		Missouri that requiring vehicles to have an		
		emissions test every other year? I understand		
		that a safety inspection could have it's plusses,		
		but the emission testing is a plain old		
		fashioned money grab against Missourians.		
		While not even statewide as vehicle		
		emissions testing is mandated only in the St.		
		Louis metropolitan area, encompassing St.		
		Louis City, St. Louis County, St. Charles County,		
		and Jefferson County multiplying the number		
		of vehicles tested annually (500,000) by the		
		cost per test (\$24) yields an estimated annual		
		expenditure of \$12 million by vehicle owners		
		in the St. Louis area. Therefore, if Missouri (St.		
		Louis area residents) were to discontinue		
		vehicle emissions testing, residents in the St.		
		Louis metropolitan area could collectively save		
		approximately \$12 million per year, not to		
		mention the time and energy savings it would		
		save to reduce the travel, taking time off work		
		and just overall nuisance of such a test. There		
		are no studies that have ever concluded that		
		the emissions program reduces emissions and

		The Saint Joseph School District has been		
		pushing initiatives for years that have been		
		voted AGAINST by the people. For example: 5		
		years ago, it was put to a vote to go to a		
		"super high school" instead of fixing the ones		
		we have. The voters vehemently opposed this		
		propisition and it failed to pass. Just last year,		
		there was a proposed bond to update and		
		repair the existing schools. Such as replacing		
		the tracks, upgrading the intercom systems,		
		new musical instruments, updated theater		
		stage, HVAC, etc. This bond was voted for by		
		the people and passed. However, since		
		approval, the board has announced they are		
		going ahead with the "super high school", and		
		only SOME repairs promised. Including funds		
		going towards repairs and upgrades to a high		
		school that they are planning to turn into an		
		office building in the next year or two. The		
		decisions being made are questionable at best,		
		and alarming at worst. As this board has been		
		involved in budgetary scandal and

		HB 593, and HB 696. All three bills purport to		
		regulate similar products and utilize the same state		
		agencies. However, the fiscal projections for HB		
		696, supported by the federally legal hemp industry,		
		differ markedly from those for SB 54 and HB 593, which are supported by the state legal marijuana		
		industry. Executive Summary Regulatory Similarity		
		and Industry Support: SB 54 and HB 593 both		
		regulate intoxicating cannabinoids. The marijuana		
		industry is well-established in Missouri with revenue		
		mechanisms (e.g., excise and sales taxes) that fund		
		agencies like the Department of Health and Senior		
		Services (DHSS) and the Department of Cannabis		
		Regulations (DCR). Consequently, their fiscal notes		
		reflect minimal or zero net additional costs and no		
		new full-time staffing requirements for the bills		
		supported by the marijuana industry.		
		Disproportionate Fiscal Projections in HB 696: In		
		contrast, HB 696 presents significantly different		
		fiscal projections despite being regulated by the		
		same agencies (DHSS, DCR, and DPS/ATC). The note		
		for HB 696 projects: A positive net revenue impact		
		via general revenue (up to \$144,071-\$192,095)		
		instead of a cost. A dramatic and seemingly inflated		
		negative impact on the Hemp Business Fund, with		
		figures in excess of \$94–\$95 million. An		
		extraordinary additional staffing requirement of 139

		I recently converted a school bus to an RV.		
		Missouri's rules for this are an example of		
		governmental overreach. In most states, one		
		just takes the commercial title in and converts		
		it to a private title. In Missouri however, one		
		has to take the bus to the MSHP to be		
		inspected demonstrating that it has been		
		converted, and pay \$30 for a form 551. Then		
		you have take the form to Jefferson City		
		Department of Revenue's main office where		
		you must produce all receipts, proving you		
		paid sales tax on installed items, or the state		
		will charge you sales tax. This is accusing one		
		of tax evasion without prior proof. You must		
		also provide pictures and a list of items		
		installed. If there is a problem you will receive		
		a form 4055 in the mail listing any deficiencies.		
		DOR will not contact you after that to let you		
		know the status of your request. It took over 2		
		months and getting my state rep involved		
		before I was able to get my new title. I missed		
		out on many trips and the ability to properly		
		enjoy my property because of the rules and		
		regulations. What is the state's interest in	Allow people to convert the
