FISCAL ANALYSIS

ASSUMPTION

Department of Natural Resources officials assume this proposal would not change their departments authority, therefore, officials assume no fiscal impact.

Oversight assumes this proposal would have no state fiscal impact.

Oversight assumes this proposal requires in counties of the first classification without a charter form of government, that whenever the County Commission would elect to establish a Countywide Wastewater Treatment Authority, the commission would appoint a five member Board of Trustees to operate the Wastewater District. Oversight assumes that counties would have no fiscal impact.

The Board of Trustees of the Wastewater District would receive no compensation, however, they would be reimbursed for actual and necessary expenses incurred conducting business of the district. The expenses would be paid from funds of the Wastewater District. Because establishing a Wastewater District is permissive Oversight will show fiscal impact to local government as zero.

<u>FISCAL IMPACT - State Government</u>	FY 2001 (10 Mo.)	FY 2002	FY 2003

FISCAL IMPACT - Small Business

No direct fiscal impact to small business would be expected as a result of this proposal.
