FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Health and Senior Services** and the **Department of Public Safety - Missouri State Highway Patrol** indicate this proposed legislation would have no fiscal impact on their agencies.

Officials from the **Department of Economic Development - Division of Professional Registration (DED-PR)** are assuming a zero fiscal impact, assuming that current DED-PR appropriations/funds could support the impact of a state emergency. DED-PR is also assuming no charge to the temporary license holder.

DESCRIPTION

This proposed legislation allows the state to temporarily license certain health care practitioners in an emergency. Current statute allows a twelve-month temporary license for a health care practitioner licensed in another state who is acting under military orders and is enrolled in a trauma and disaster response training in this state. The proposed legislation adds a third category to also allow temporary licensure of a health care practitioner licensed in another state and acting pursuant to a Governor's declaration of a state public health emergency. Temporary licensure for this category will be issued for a two-week period and, after verification of qualifications, may be reissued every two weeks. Licensure information for all three categories may be obtained by any means, including electronic mail.

DESCRIPTION (continued)

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
