FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration, State Treasurer's Office**, and the **Department of Public Safety – State Highway Patrol** assume the proposed legislation would have no fiscal impact on their agency.

Officials from the **Christian County Sheriff Department** assume their department could receive revenues up to \$100,000 per year for up to three consecutive years if they applied for and received a grant.

Officials from the **St. Louis County Police Department** assume their department could experience a savings in the clean-up of methamphetamine labs, including consumable supplies, in the amount of \$20,000 per year (\$250 per lab x 80 labs).

Officials from the **Department of Public Safety (DPS) – Director's Office** assume the proposal creates a team called "MoSMART" within the DPS. The team is made up of five members that shall be sheriffs. The DPS shall administer MoSMART, which shall consist of conducting audits, monitoring, programmatic assistance with grants, etc.

In order to perform the duties required by this legislation, the DPS would require four additional FTE: one Program Manager (at \$44,444 per year, plus fringe benefits, equipment and expense) who would be responsible for employees under this program as well as the general administration of the program; one Program Representative I (at \$30,204 per year, plus fringe benefits, equipment and expense) to review applications for grants, assist in general program duties, and monitor programs as needed; one Accountant I (at \$30,204 per year, plus fringe benefits, equipment and expense) to assist in the review of applications for grants, assist grantees with financial aspects of having a grant with this money, and, as required by the proposed legislation, audit the MoSMART fund at the end of each fiscal year; and one Clerk Typist III (at \$23,184 per year, plus fringe benefits, equipment and expense) to provide clerical support for the staff of MoSMART and MoSMART members.

The DPS would also require rental space for an offsite facility because the Director's office no longer has adequate space for additional employees. The DPS estimates the cost for this rental space to be \$10,800 per year, plus \$20,000 per year for renovations.

DPS estimates the cost of this proposal to be \$258,288 in FY 03, \$234,294 in FY 04, and \$238,804 in FY 05.

ASSUMPTION (continued)

DPS estimates the number of MoSMART funds applications filed annually will exceed 27. Based on this estimate, **Oversight** assumes the DPS will require 2 FTE (1 Program Specialist and 1 Clerk Typist III) to administer the MoSMART program. Salaries have been adjusted to more closely reflect actual starting salaries. Oversight assumes the 2 FTE would be housed within existing facilities. Therefore, no additional rent, renovation, janitorial, utility, or offsite computer expenses would be incurred. Oversight assumes, based on information received from the Cape Girardeau Sheriff, MoSMART will be federally funded through December 31, 2003. Therefore, Oversight assumes the DPS would incur costs for 6 months of FY 04 and 12 months of FY 05.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

The proposed legislation would create the "Missouri Sheriff's Methamphetamine Relief Team" (MoSMART), within in the Department of Public Safety. This team would consist of five sheriffs, who would each serve a two-year term and elect a chairman.

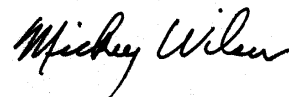

The proposal also would create the MoSMART Fund. This fund would be available on an application basis to law enforcement entities and task forces. Applications would be evaluated based upon the level of funding designated for methamphetamine enforcement before 1997 and upon current need and circumstances.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
